Changes

Change is all around us. It is a vital part of our lives, for it is impossible to grow without experiencing change, both inwardly and outwardly. By meeting the challenges brought on by these changes, we grow stronger and develop the ability to deal with change in a positive way.

Changes in our community and school affect us daily. The goal of this year's EPIC is to capture in pictures and text the changes in our community and school which we have encountered this year. It seeks to portray how we have met the challenge of those changes. The EPIC is about us, the ASH community, and how we feel about life. EPIC '87 — a celebration of change and the challenge it brings!

Times are changing, and believe it or not so is Alexandria. The Jackson Street bridge, a new and safer bridge, has taken the place of the old Murray Street bridge. Restored to her original elegance, the Hotel Bentley is the hottest place for parties and proms. The expansion of the mall has brought in many national chain stores which give Cenla more access to a greater variety in fashion. In addition, the port will create more jobs causing Alexandria's population to greatly increase. CENLA — in the midst of change.

ASH Reaction

Do you feel that the drug test violates the rights of athletes?

"I don't think that the drug-testing program at ASH is an infringement upon the Constitutional rights of an individual for two reasons: 1. The Athletic Department at Ash has voluntarily agreed to participate in the program. 2. Any athlete has the option of not submitting himself to the drug test if he chooses to resign from the sport in which he is participating. An infringement or violation of one's rights would imply no alternative." **Larry Dufrene**

"Well, not really, the drug test is good. Athletes come clean and the school comes clean ... When the results come back they will prove they are not involved in drugs." **Sean Pickens**

"The mandatory drug test does not violate my rights at all because I feel the test will bring positive results that will better our quality of life, our performance, and discourage the use of drugs among all high school athletes." **Umekki Anderson**

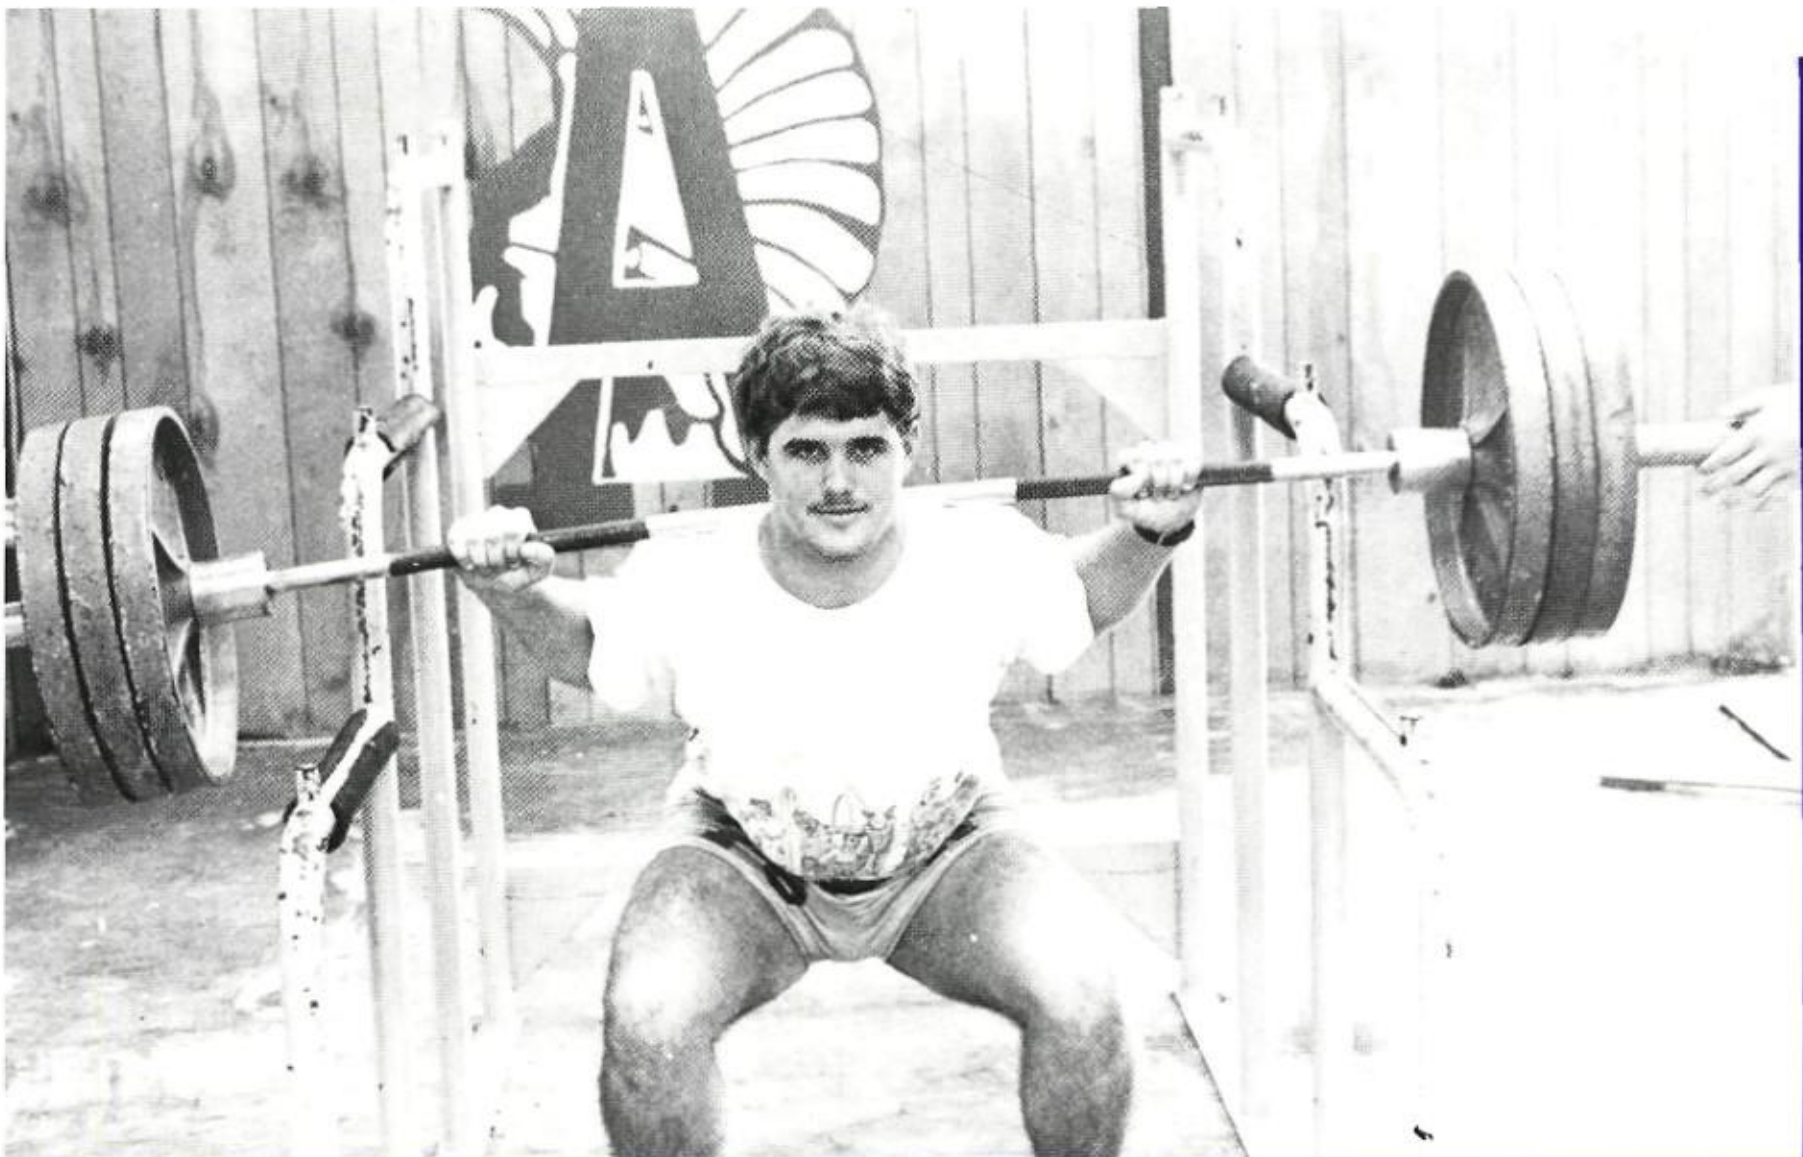

The drug test — the solution? The drug problem is just that — a problem. ASH's solution to this problem is mandatory drug testing for all athletes. School board member, Butch Crenshaw, proposed the drug test; Coach Butch Stoker and Principal Aubrey Sanders agreed that ASH athletes should take the test at ASH.

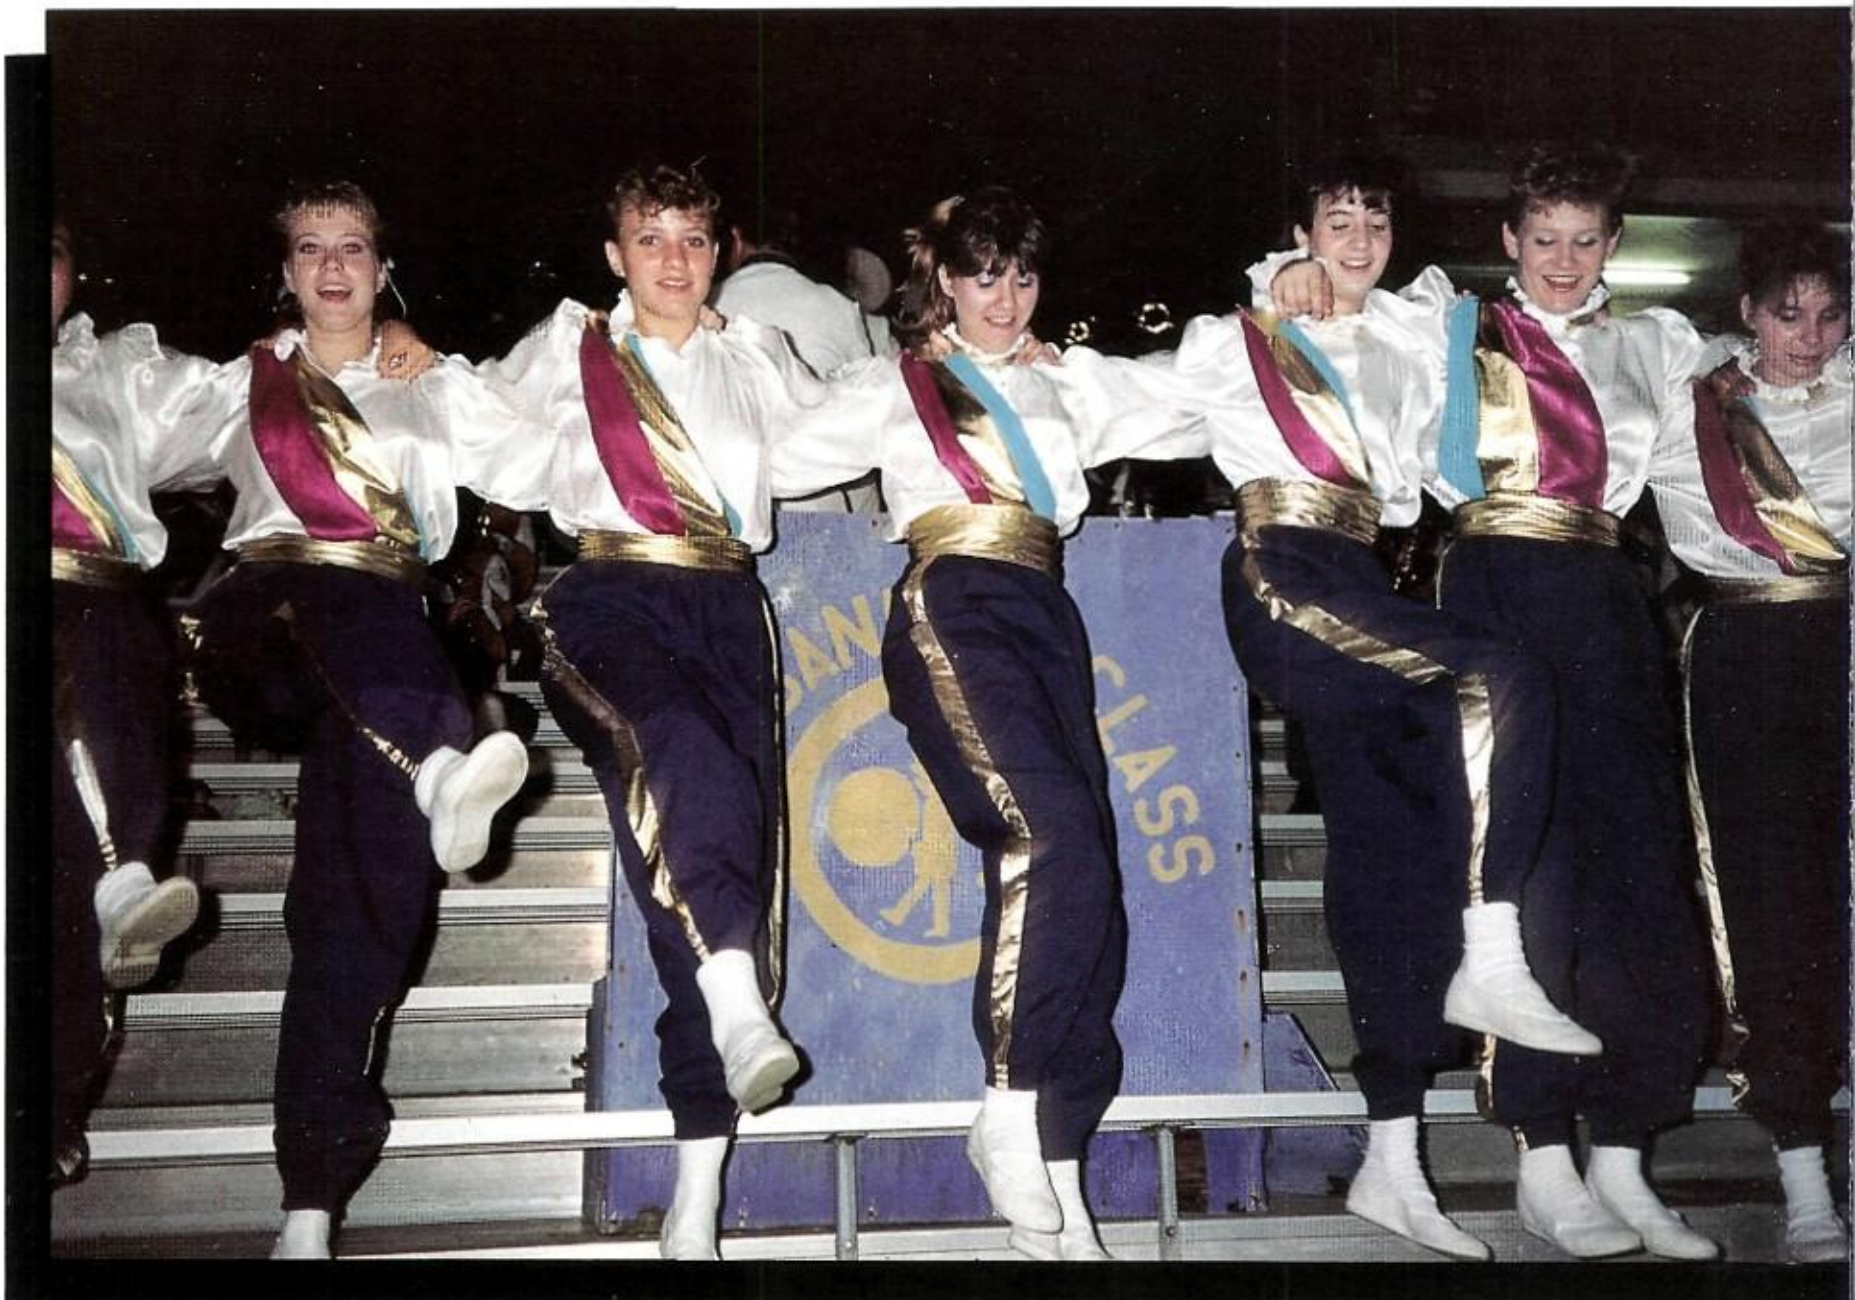

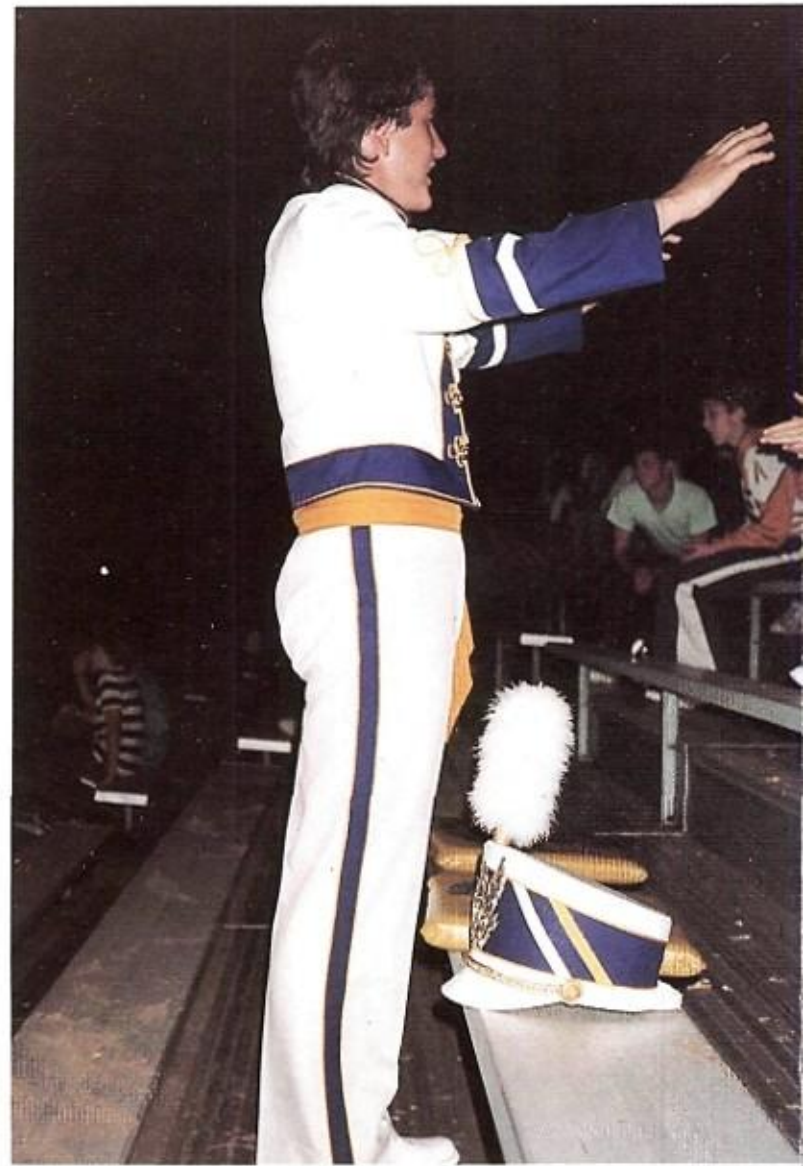

Initially, the drug test will be given to all athletes; then participants will be selected randomly. The coaches will test the athletes and send the samples to a laboratory to be analyzed. Each athlete will have a code number to keep test results confidential. An

athlete who tests positive must go through a series of corrective steps: he will be suspended from the team for a year and be required to attend a chemical dependency unit. If he wishes to try out for another sport, he must pass another test. After the year of suspension, he may try out for the original sport again. If the athlete tests positive a second time, he will not be allowed to participate in any sport. Drug testing may not be THE SOLUTION, but it is a positive step that shows ASH cares about the welfare of its students.

A Solution?

Spirit

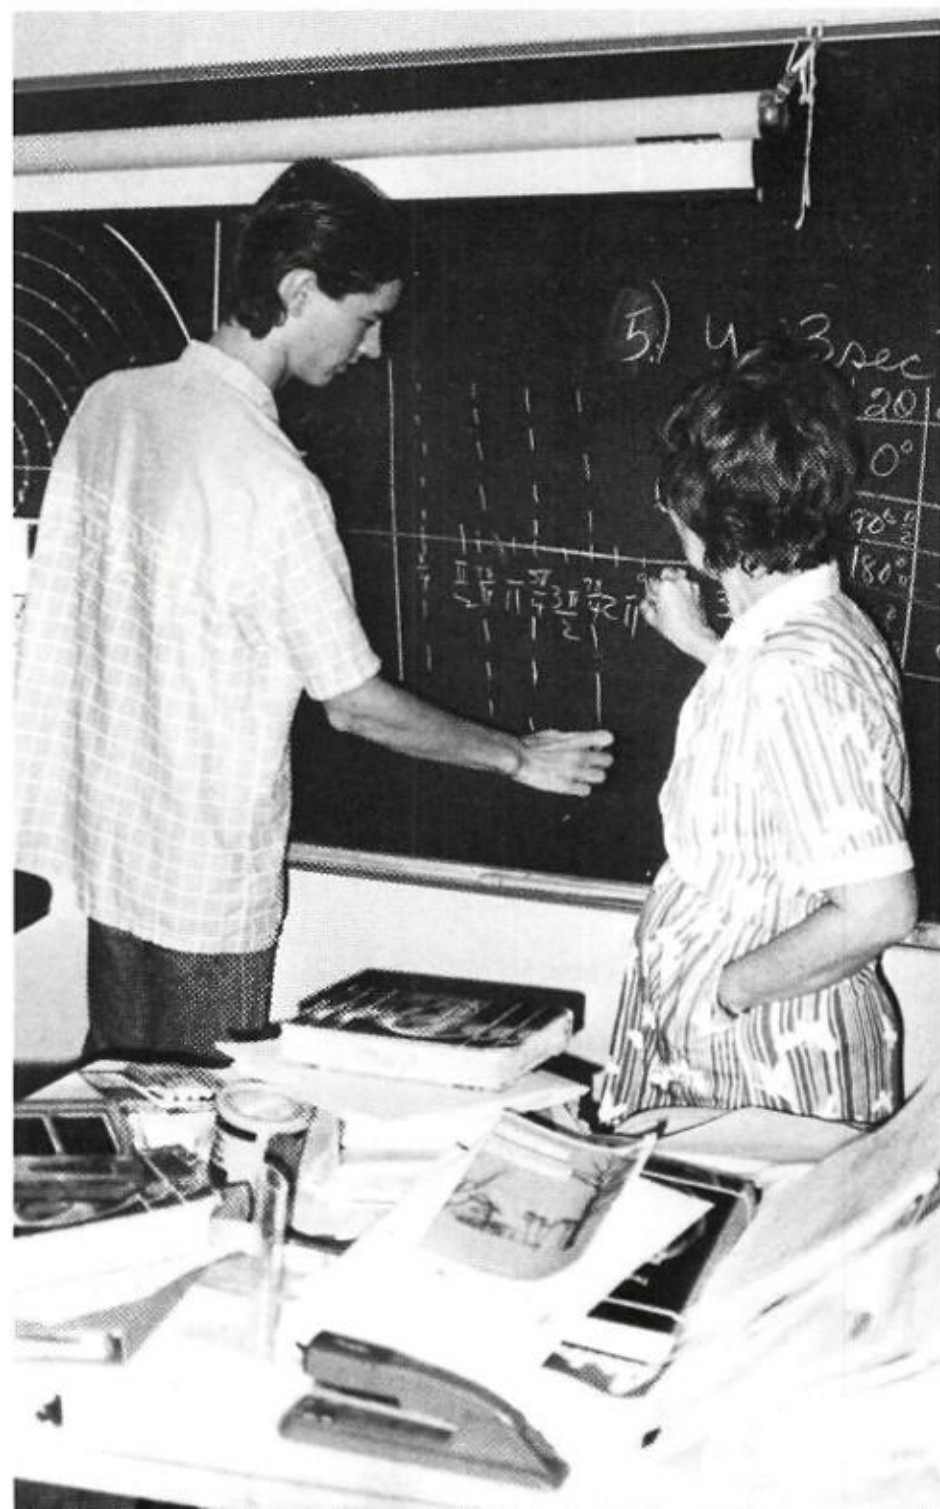

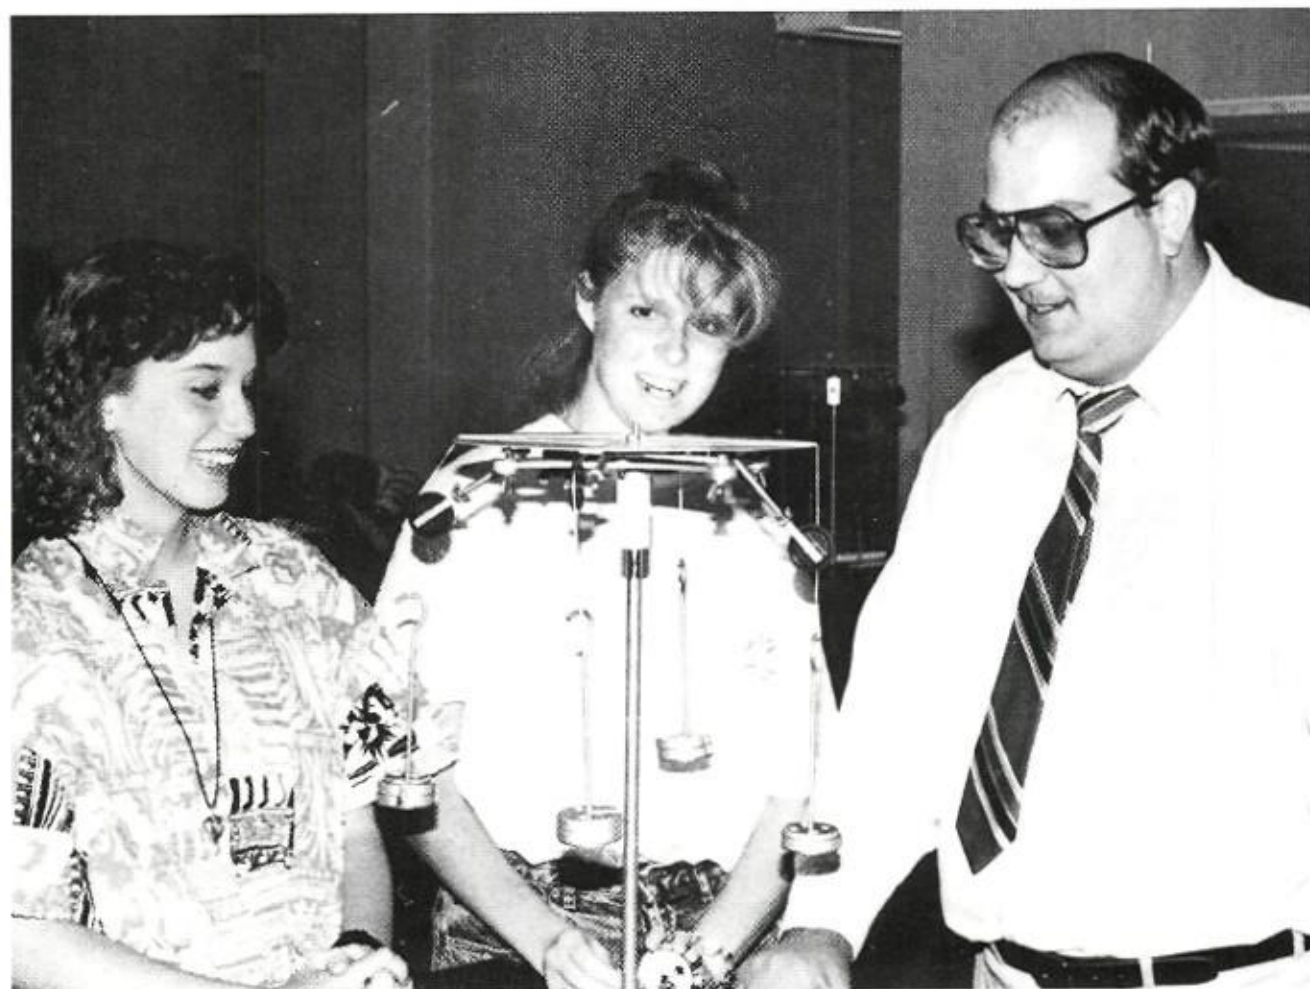

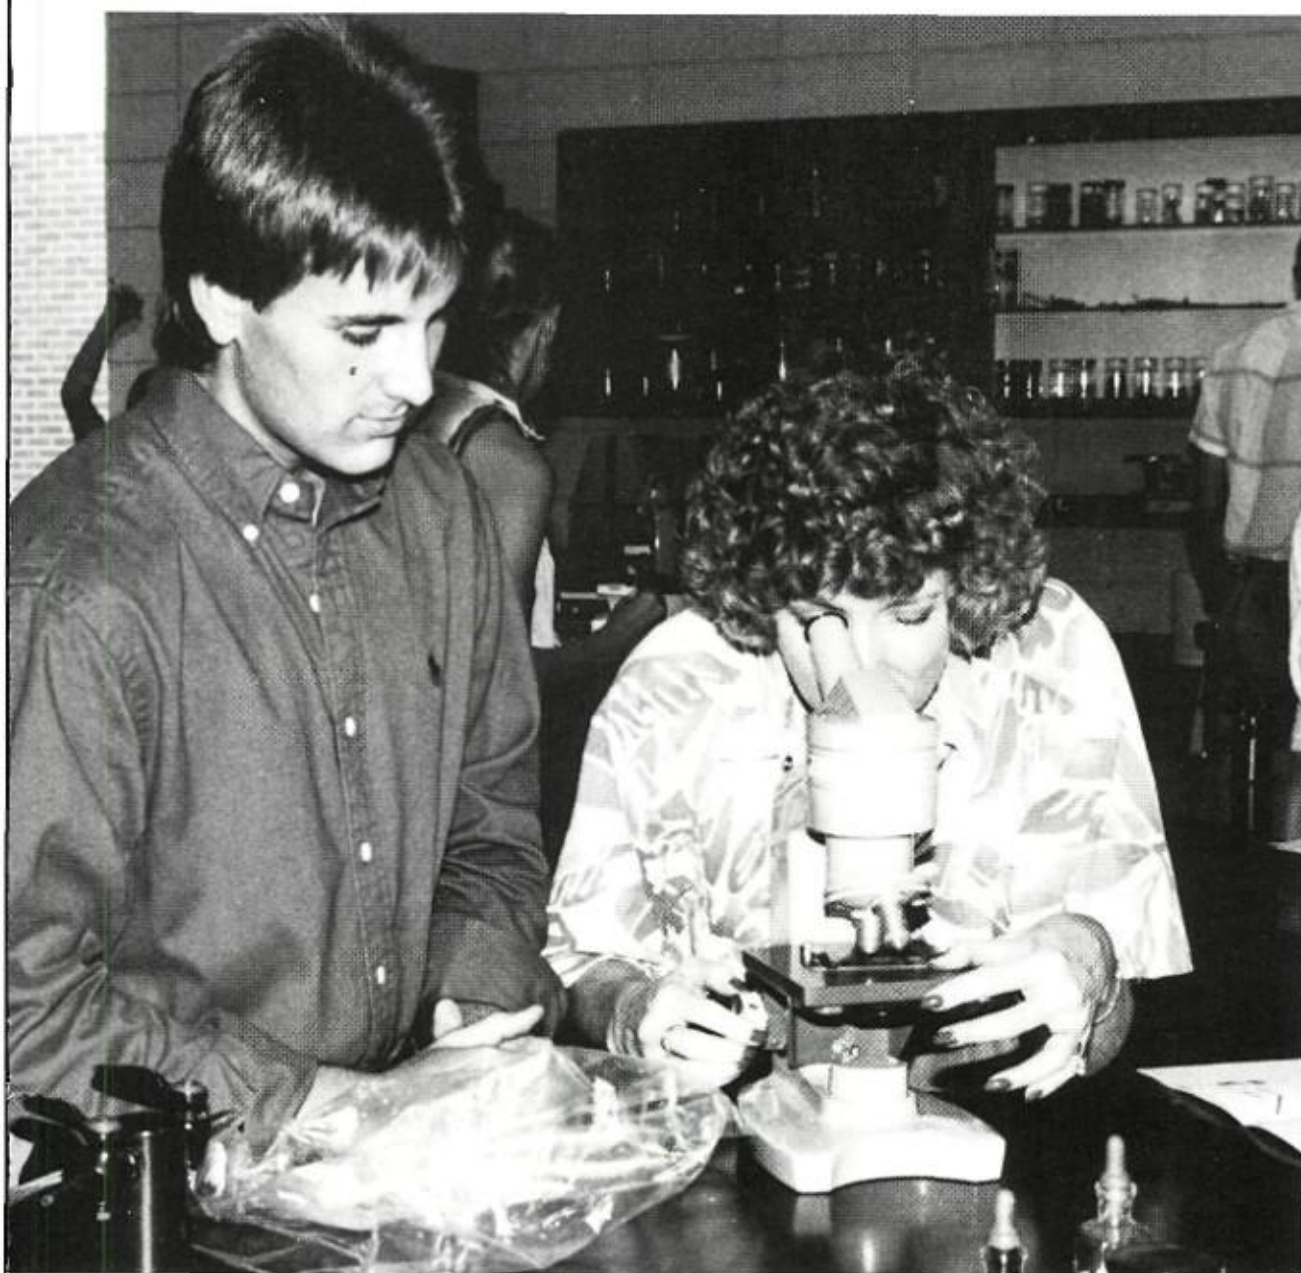

Can you feel it? It's in the air all around you. Reach up! Now — catch it! Isn't it great? It's SPIRIT! No, it isn't as complex as a chemistry equation, but it's vital for life. Imagine no dances, no parties, no football games — no SPIRIT.

A freshman is typically timid, and so is his spirit. Sophomores have a little more spirit, but they want to make the "right" impression so they hide their spirit. Juniors have spirit, but they don't show it until they've perfected it. And seniors? Seniors have the greatest SPIRIT because it's been pinned up for three years, and it's dying to get out! Put it all together and what do we have? TROJAN SPIRIT!

Academics

ASH students are fortunate to attend a school that cares enough to be open to change. Such changes include updating faculty, offering new courses, providing help when students need it, and challenging its students' capabilities.

This year several new classes and programs have been added. Among the courses are Spanish I and an introductory analysis class. A tutoring program has been initiated to help students having problems in any of their courses. For those students who need a greater challenge, the Challenge Program has been established. The graduation requirements have also changed. As of 1987 students will follow a more rigid curriculum requiring 24 credits. Academic Change — meeting the needs of all students.

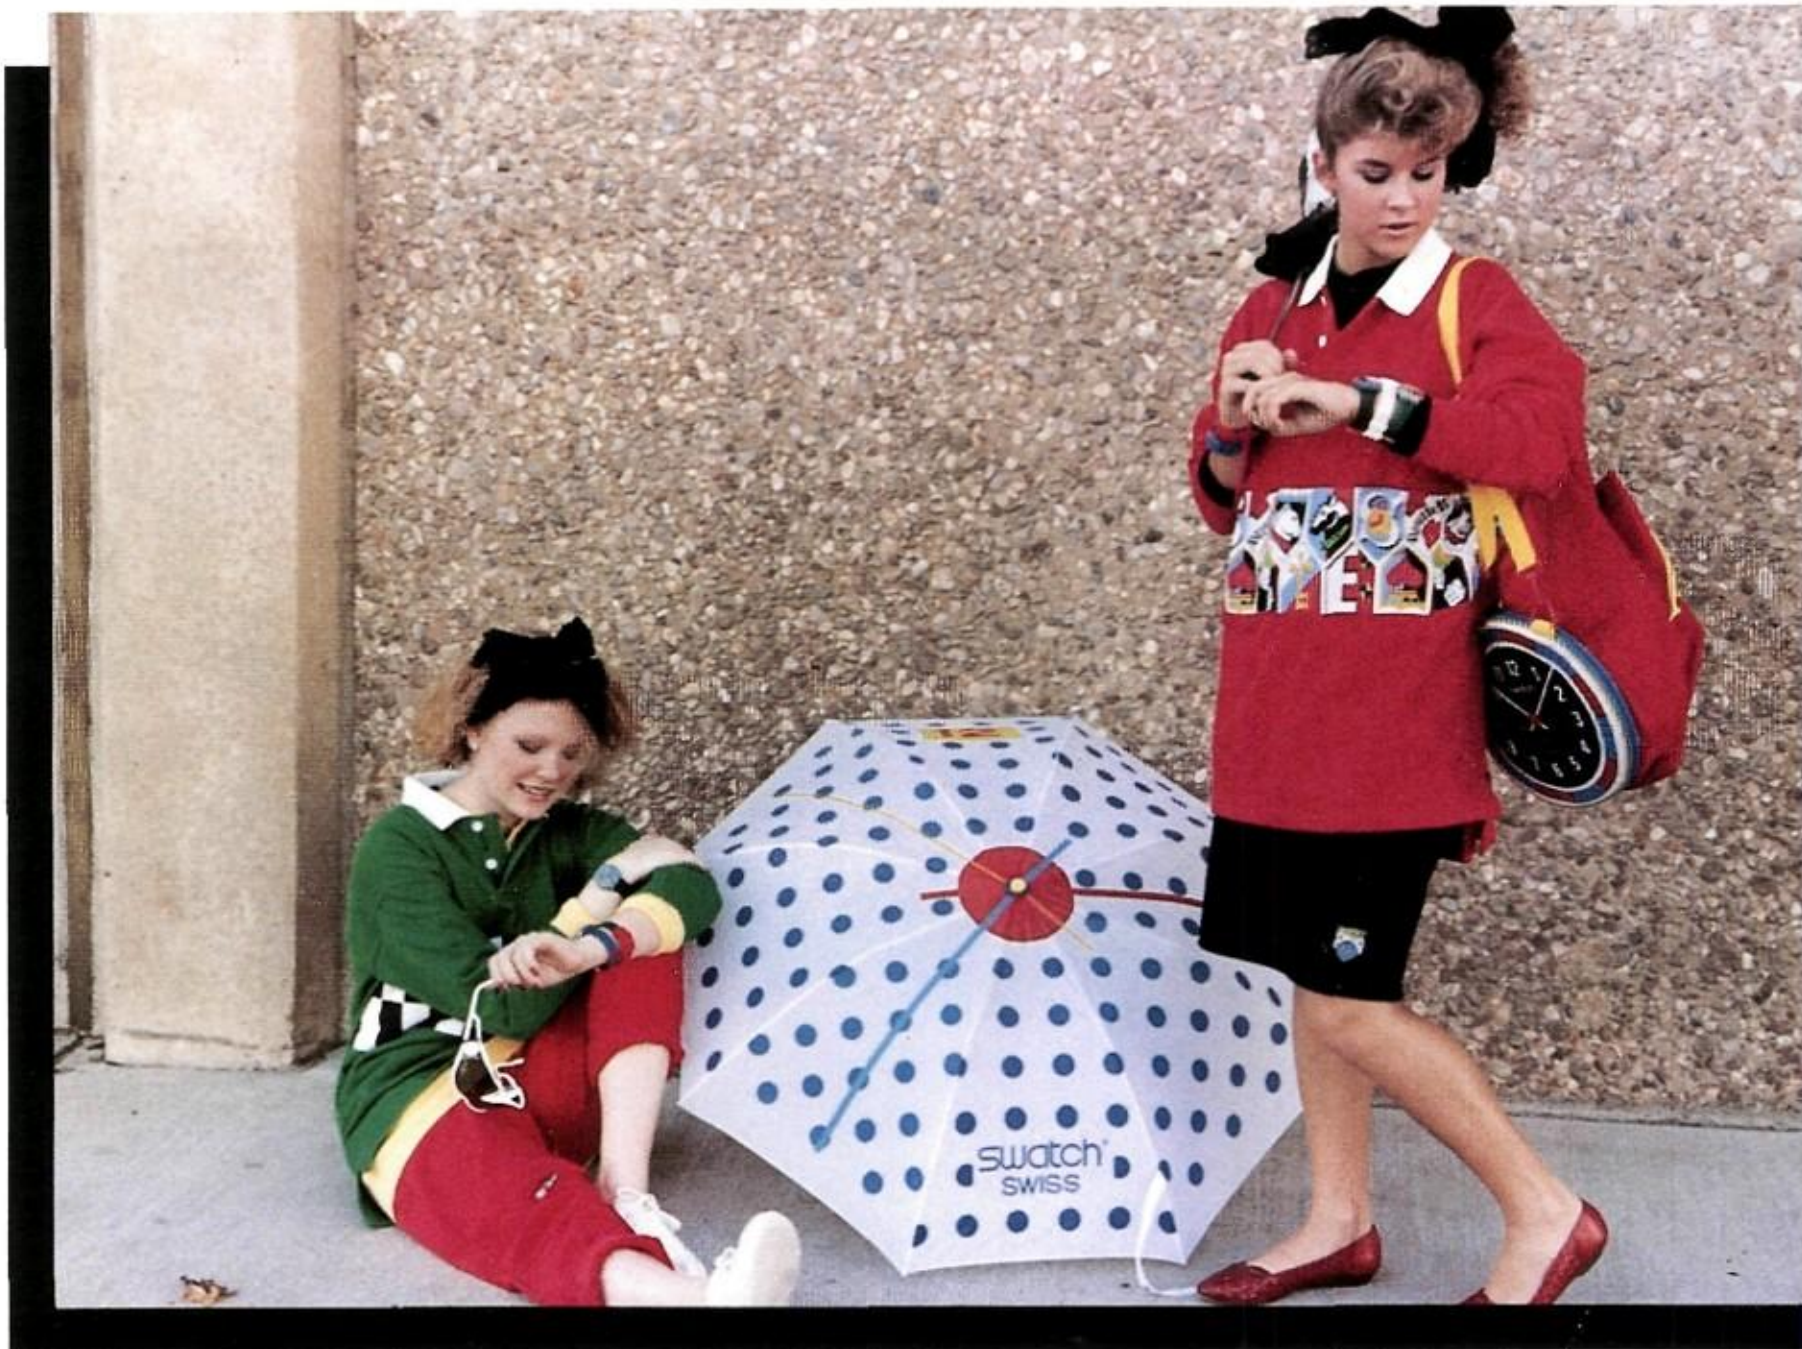

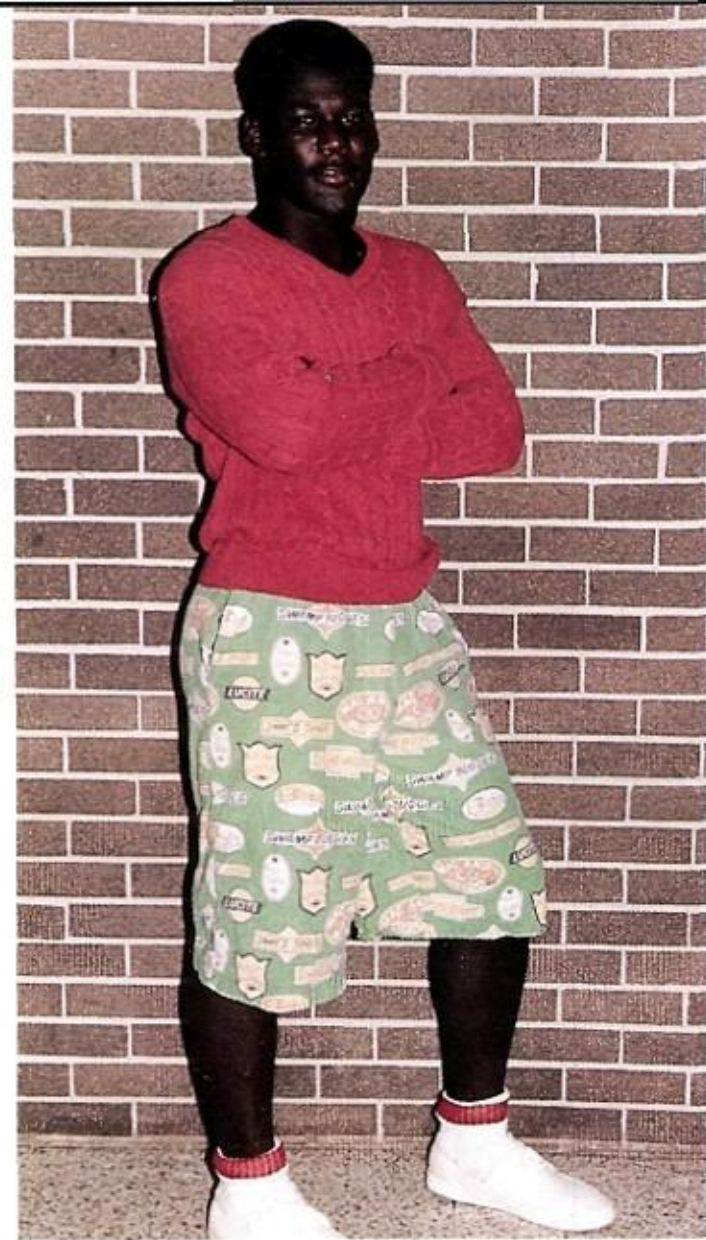

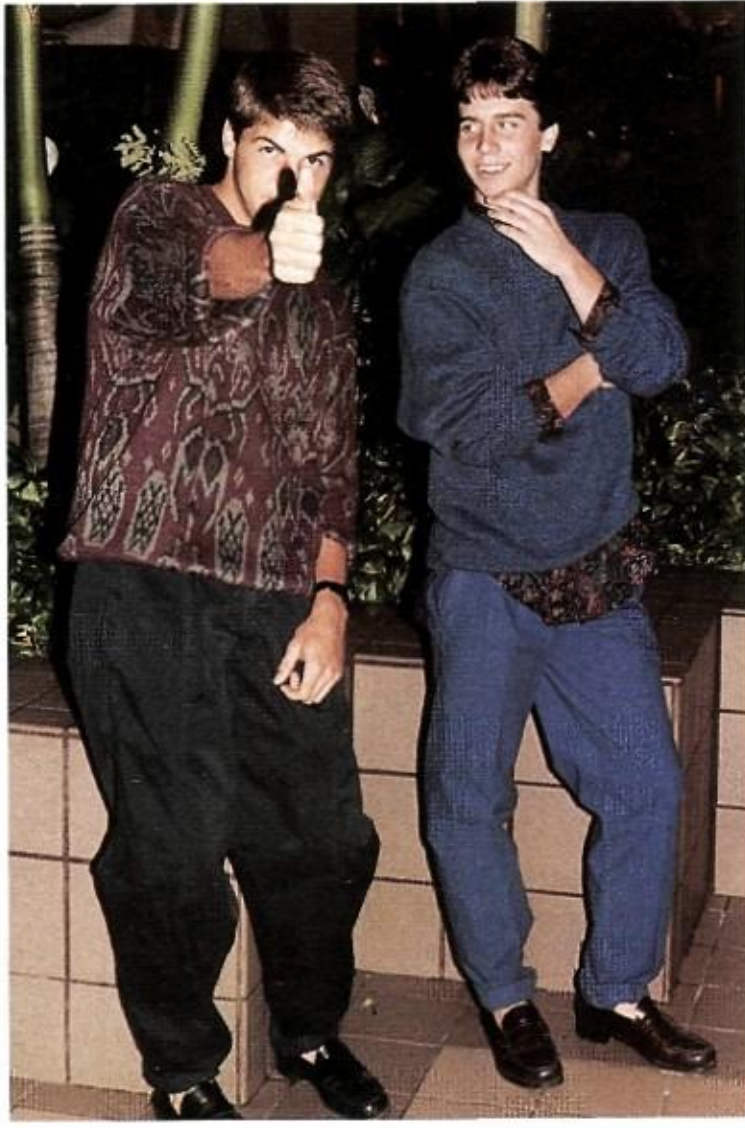

Have you noticed a change in what ASH students are wearing? This year there's been a big change in "what's in." Fashion is constantly changing, and with the addition to the Alexandria Mall there has been a drastic change in what we consider "cool."

Bright blue, true red, gorgeous green, royal purple: color matters this year. In fact, this year should be called the year of color. Jams are splattered with brilliant hues of every color imaginable. Swatches come in every color of the rainbow. Color is fantastic, and now it's everywhere.

Fashion, hair styles, and make-

up are very different from those of '86. Shirts are buttoned to the collar; no more of the John Travolta look! Oversized clothes are back, especially in sweaters. Skirts have gone from six inches above the knee to six inches below the knee. Silver jewelry is very "in"; gold is out. Guys want short hair, and girls want a longer look; whereas last year, girls' hair couldn't be short enough, and guys all had to tuck their hair in their collars when Mr. Hutchinson came by. Girls' make up is leaning toward a more natural look. Without a doubt, Fashion '87 reflects a laid back out-look on life.

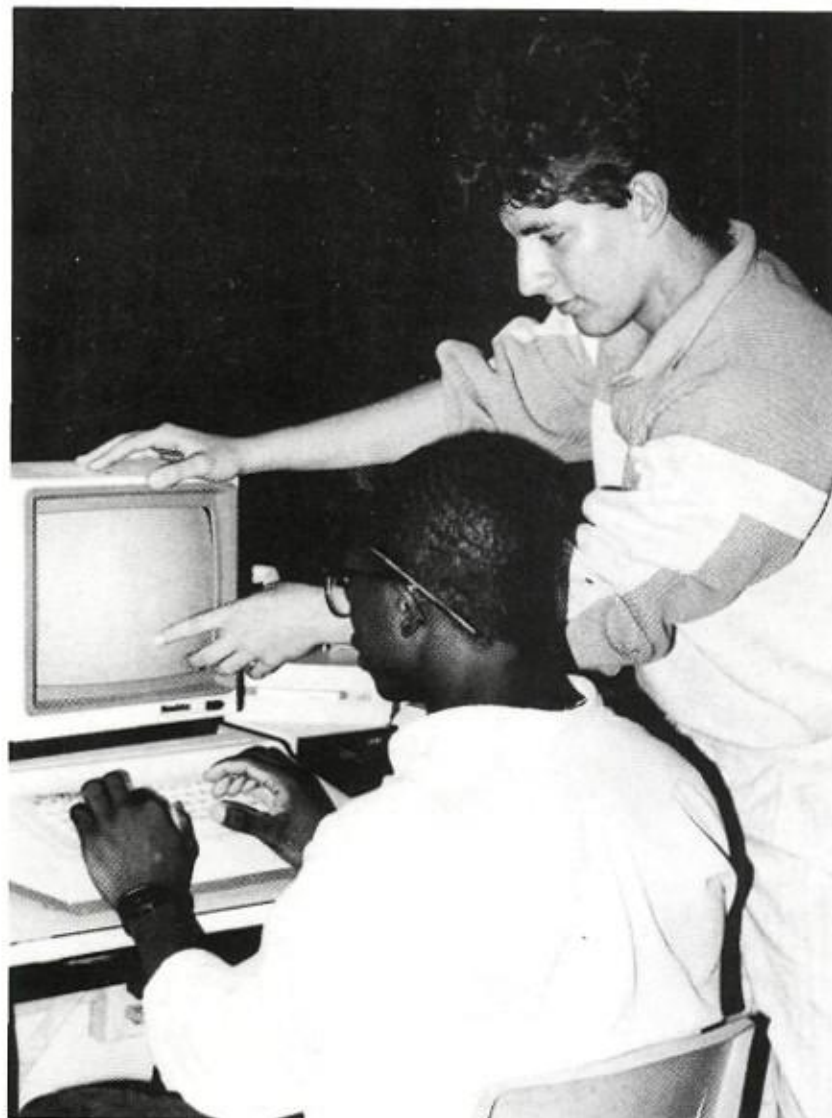

Fashion

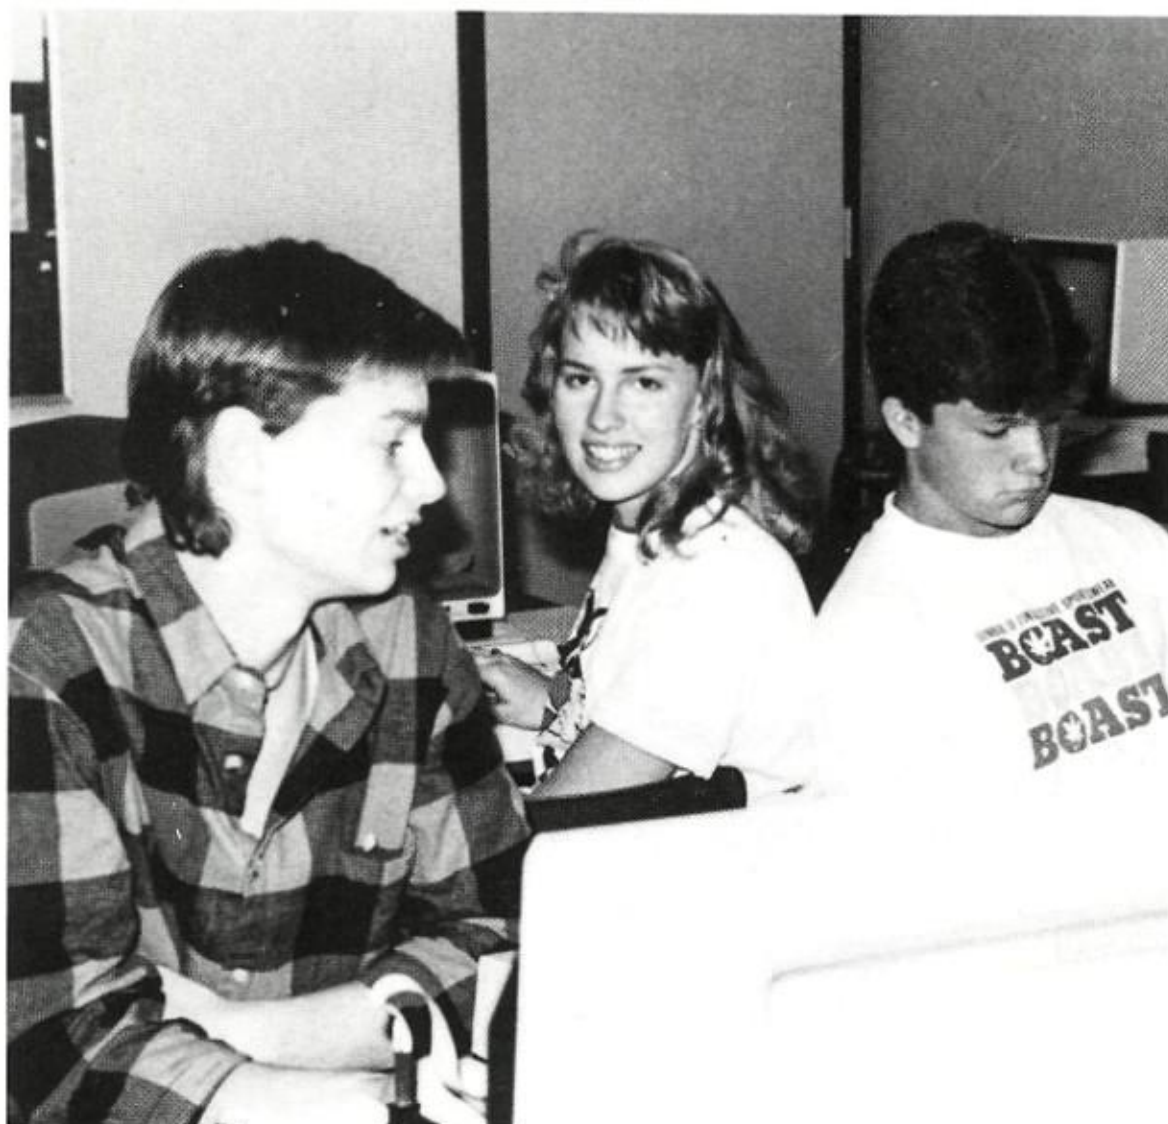

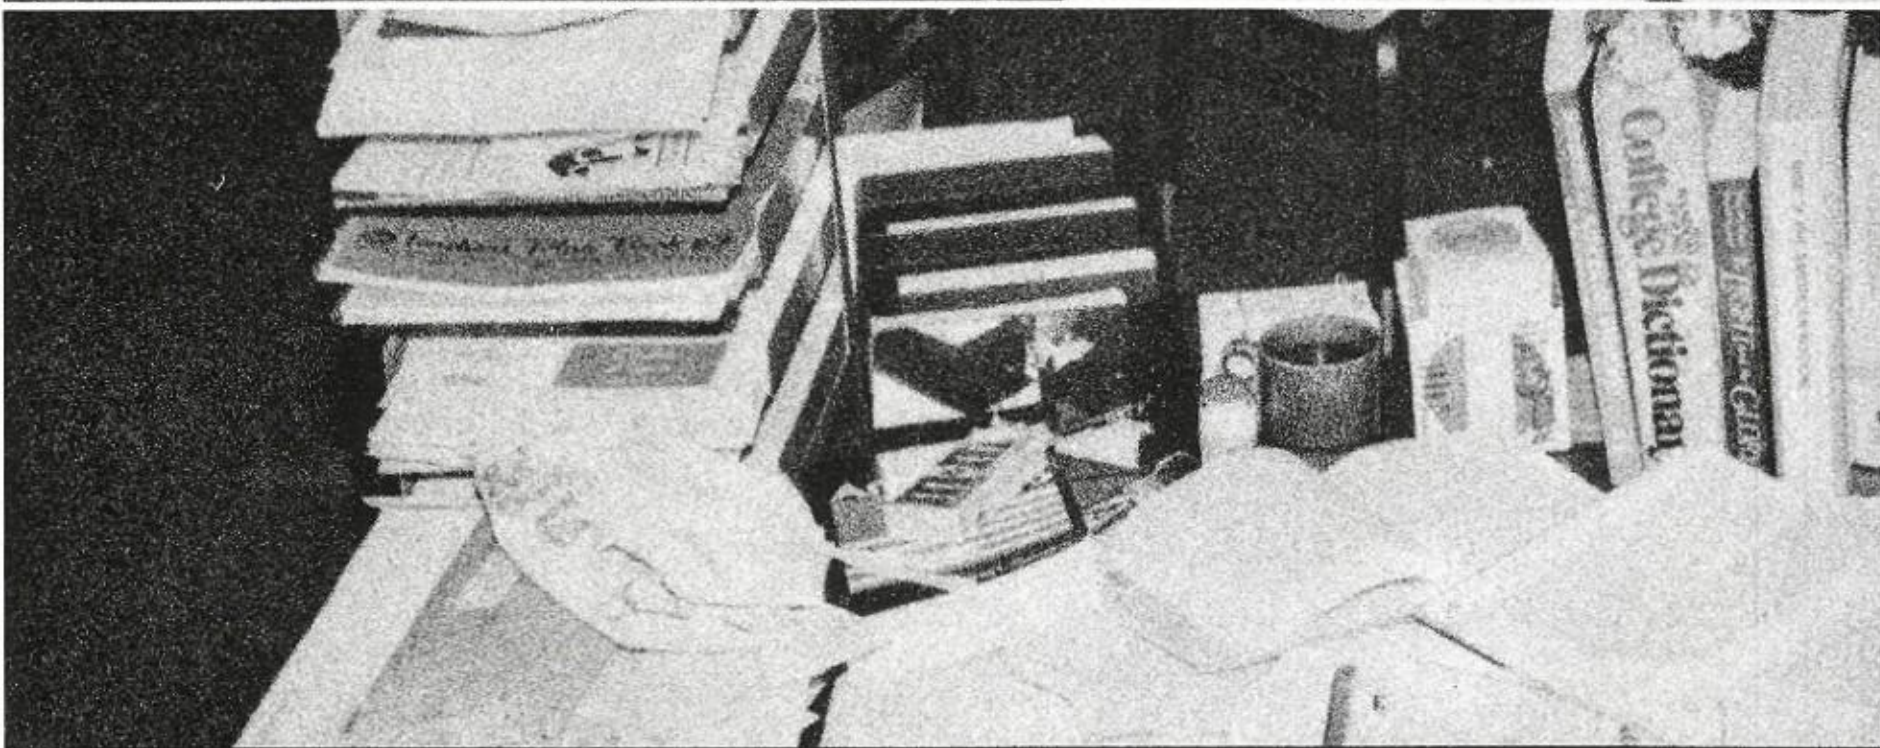

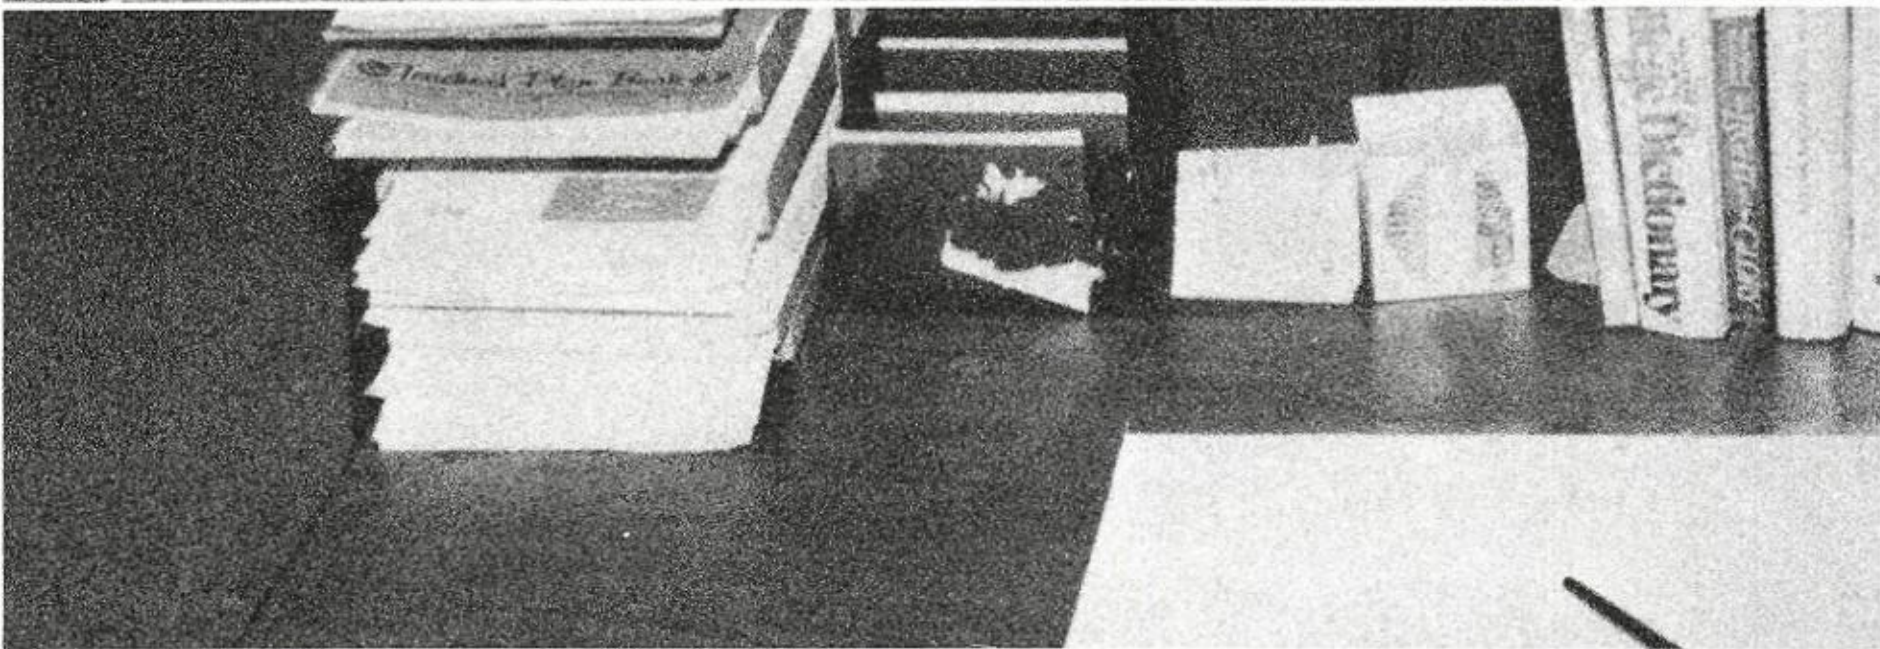

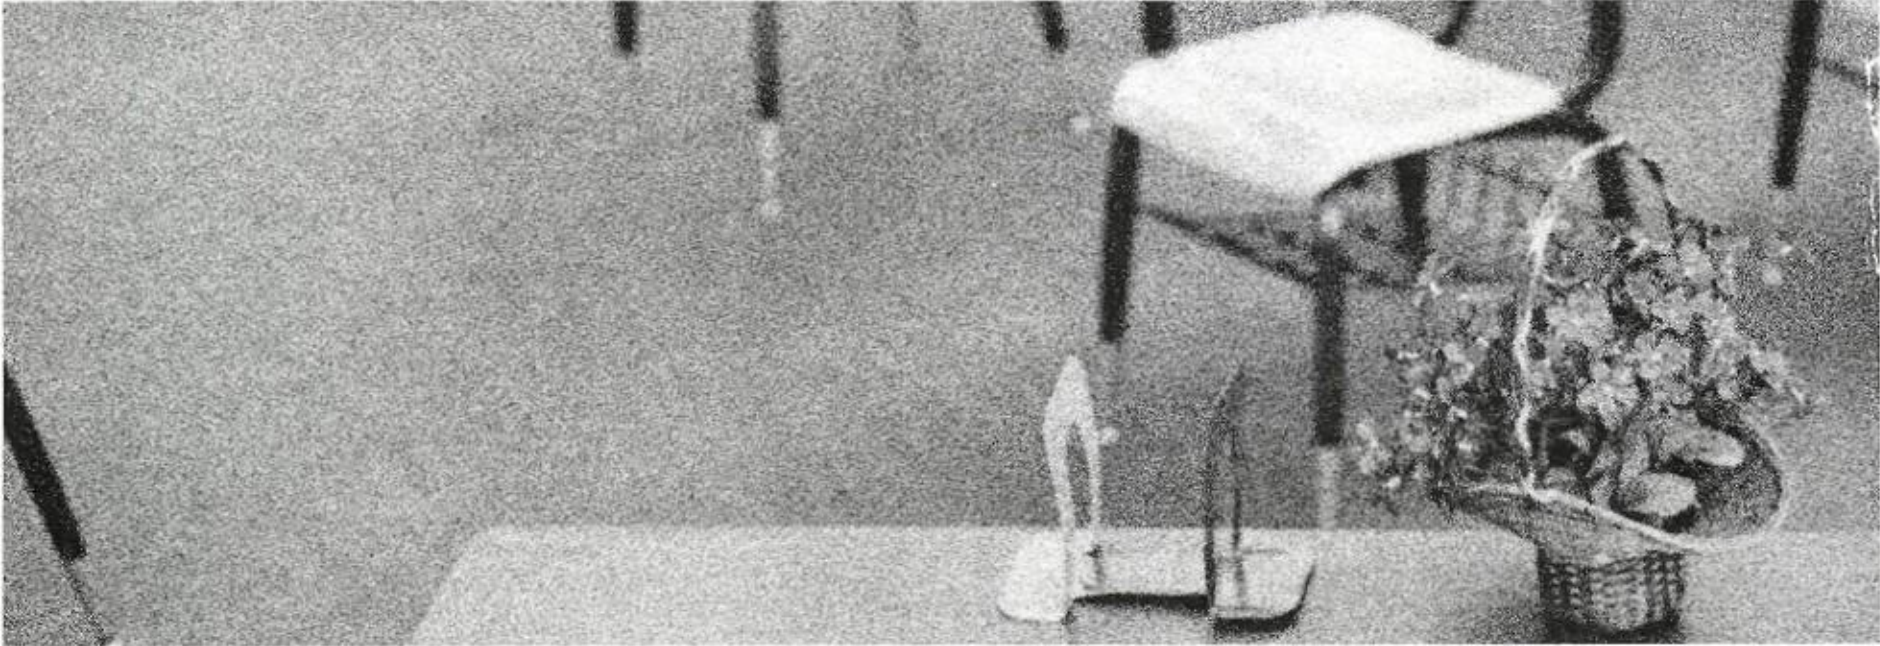

One change that has had a great impact on various departments at ASH is the increased use of the computer. First utilized by Coach Stoker in the athletic department to compute statistics and program practice schedules, the computer is now being used by all three ASH publications and the library staff. For the first time, the Scroll staff will program both copy and layout on computer, while the EPIC staff will use it for copy and bookkeeping. The computer is also an integral part of the new Challenge Program begun by the librarians this year. Computers and change-presenting new challenges to students and staff.

Student Life . . . Let it Excite You!

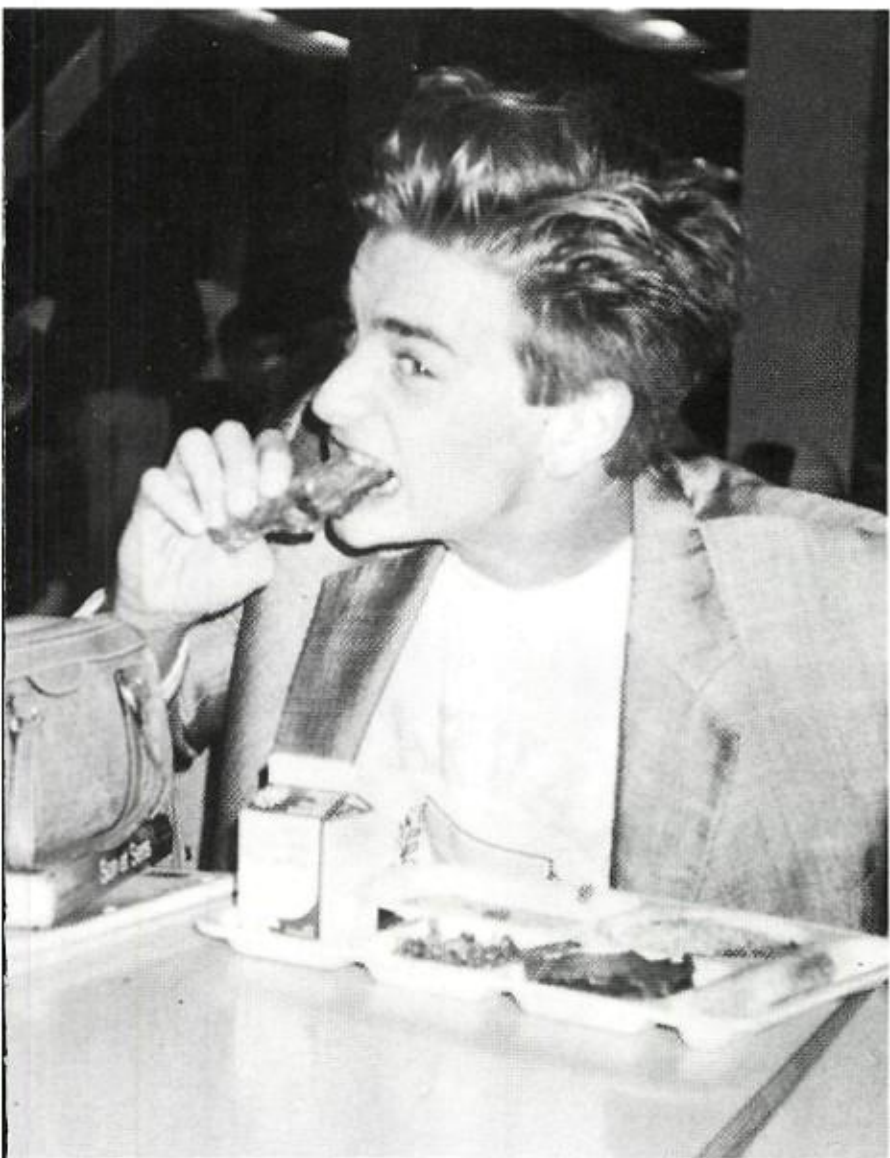

Student Life — a mirror that reflects this past year: the good and the bad, the happy and the sad. These reflections will never change. They are what we remember from 1986-87: the friends, the fights, the finals, the teachers, the tests, and the togetherness. But most of all, the mirror of Student Life reflects the Trojan SPIRIT!

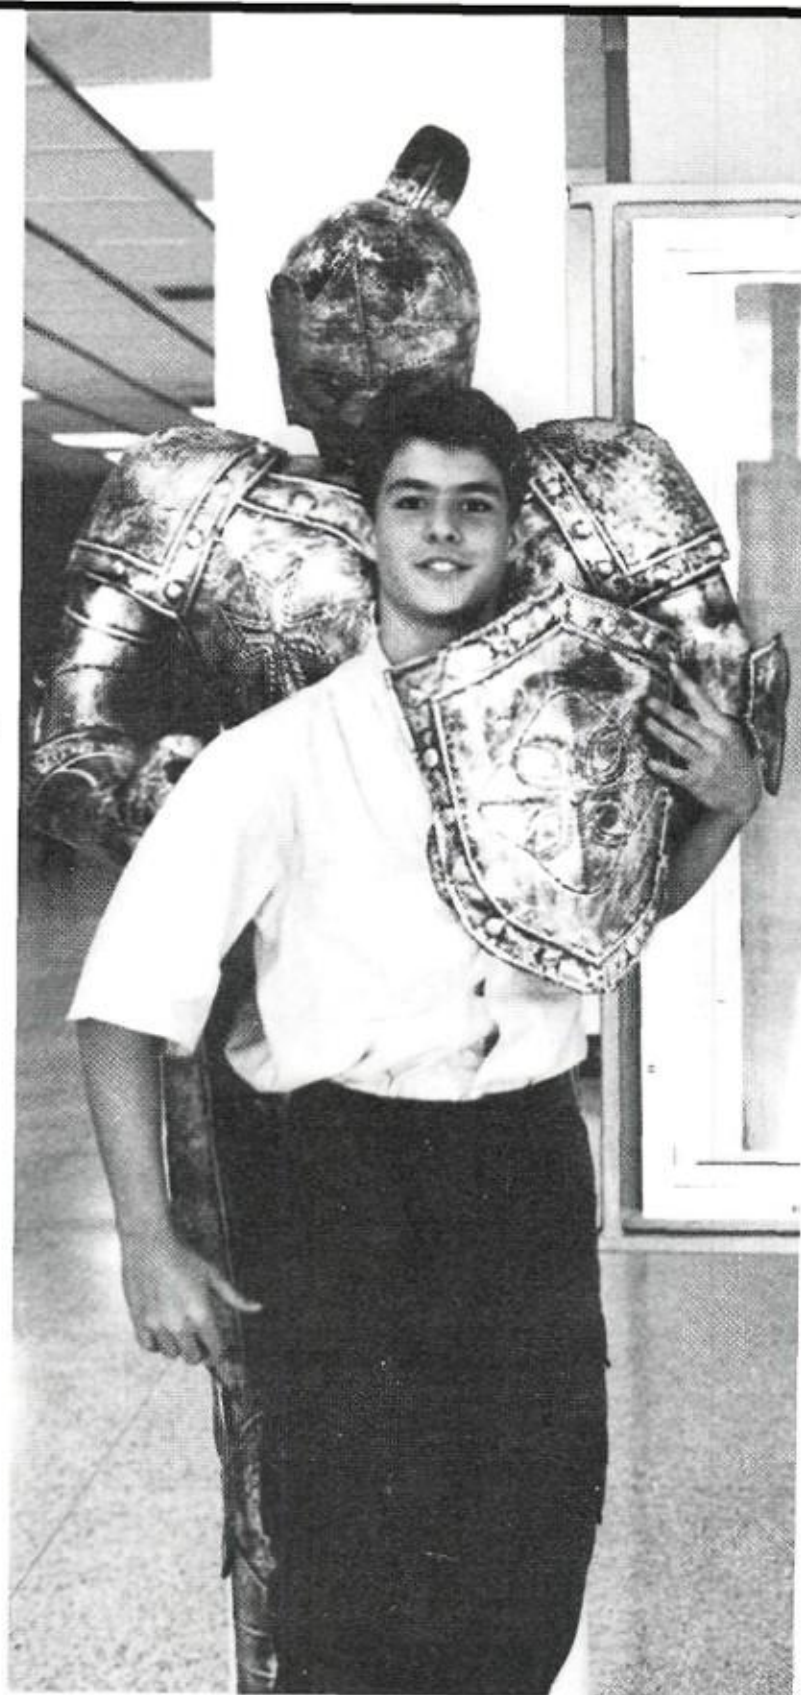

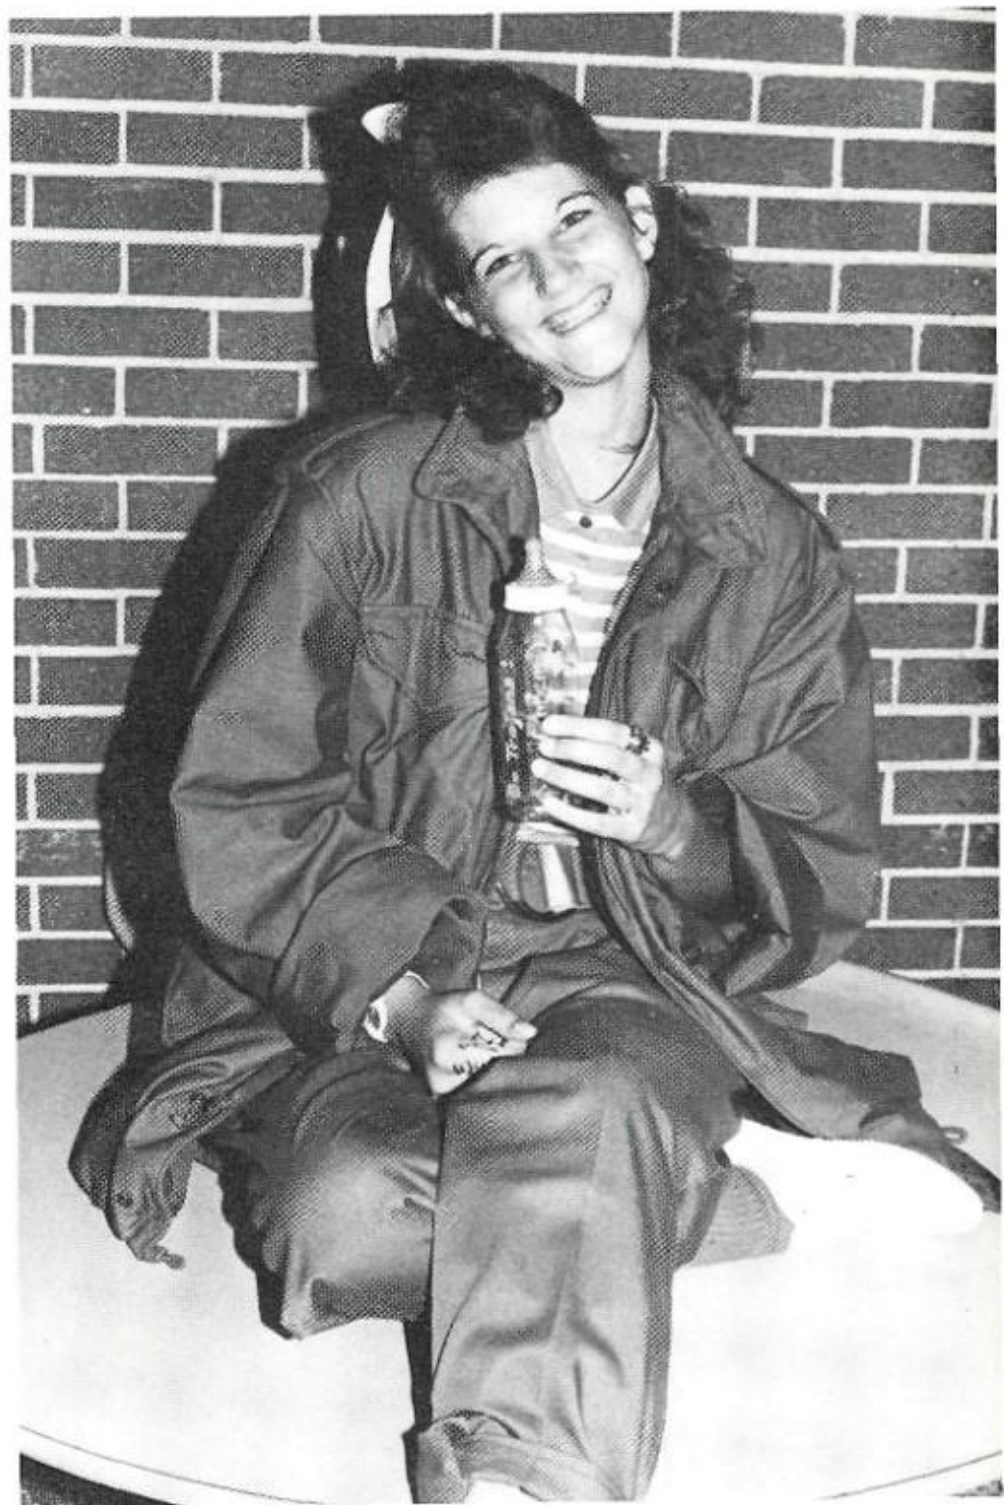

Variety is the Spice of ASH

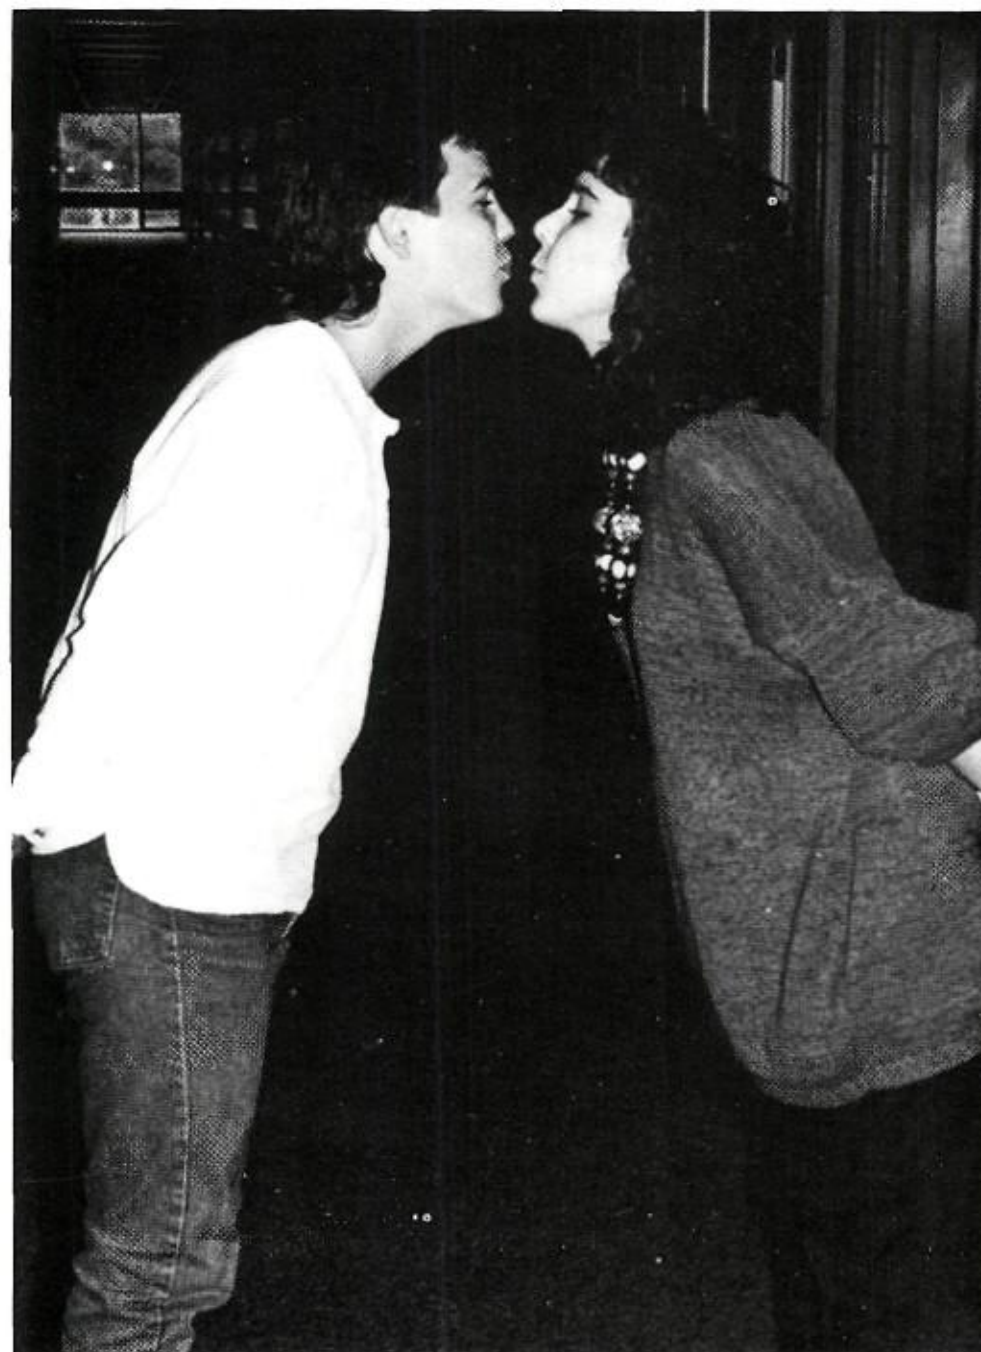

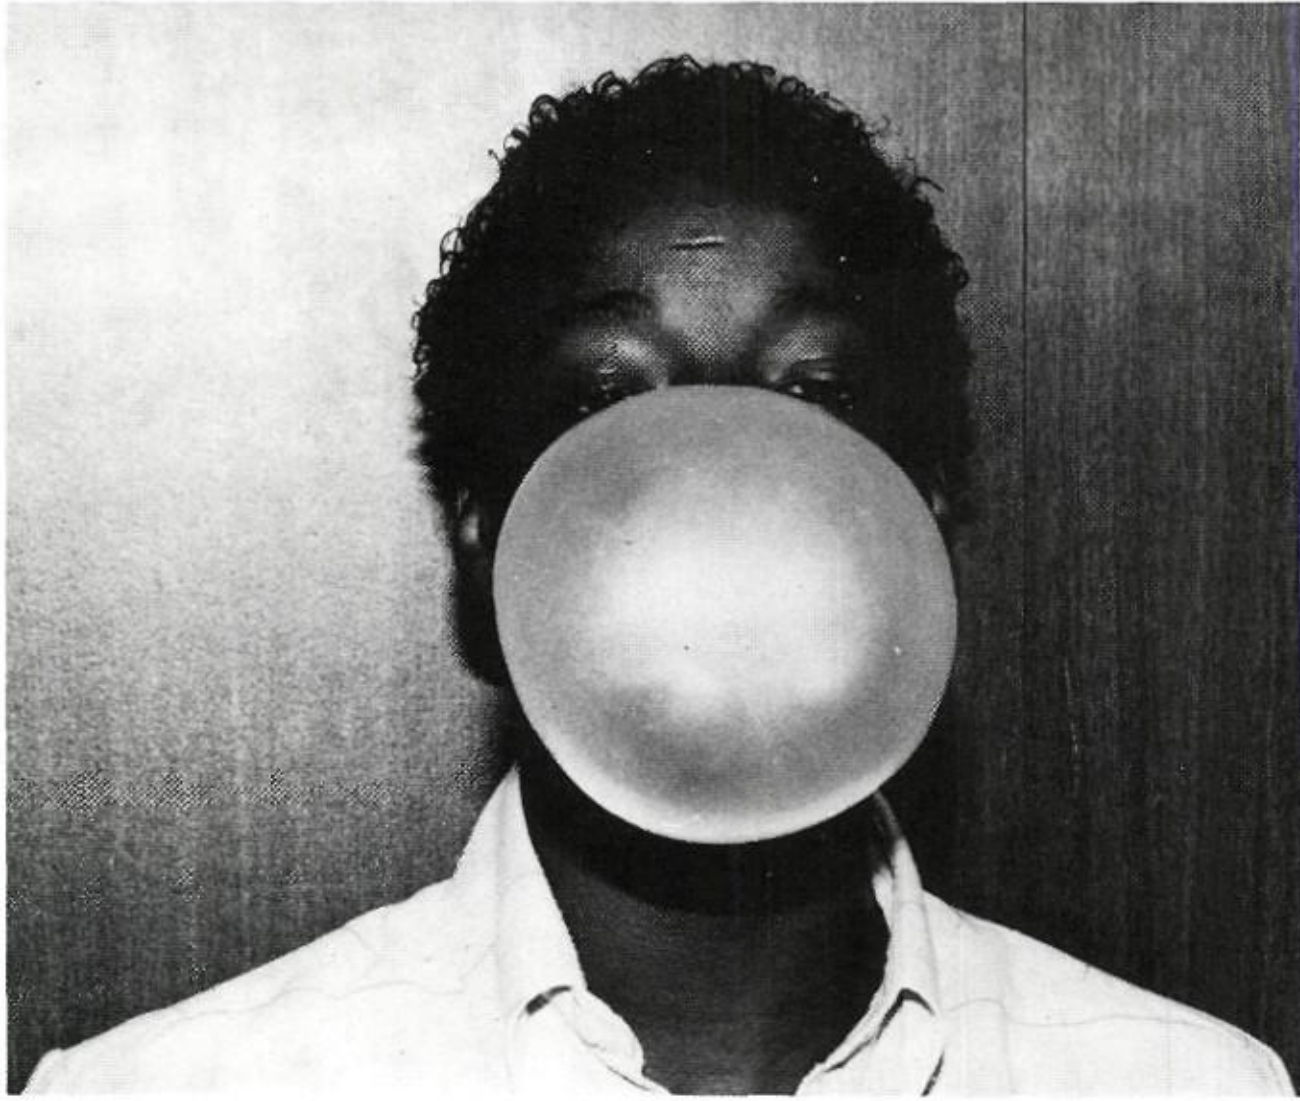

A Little Kid In All of Us

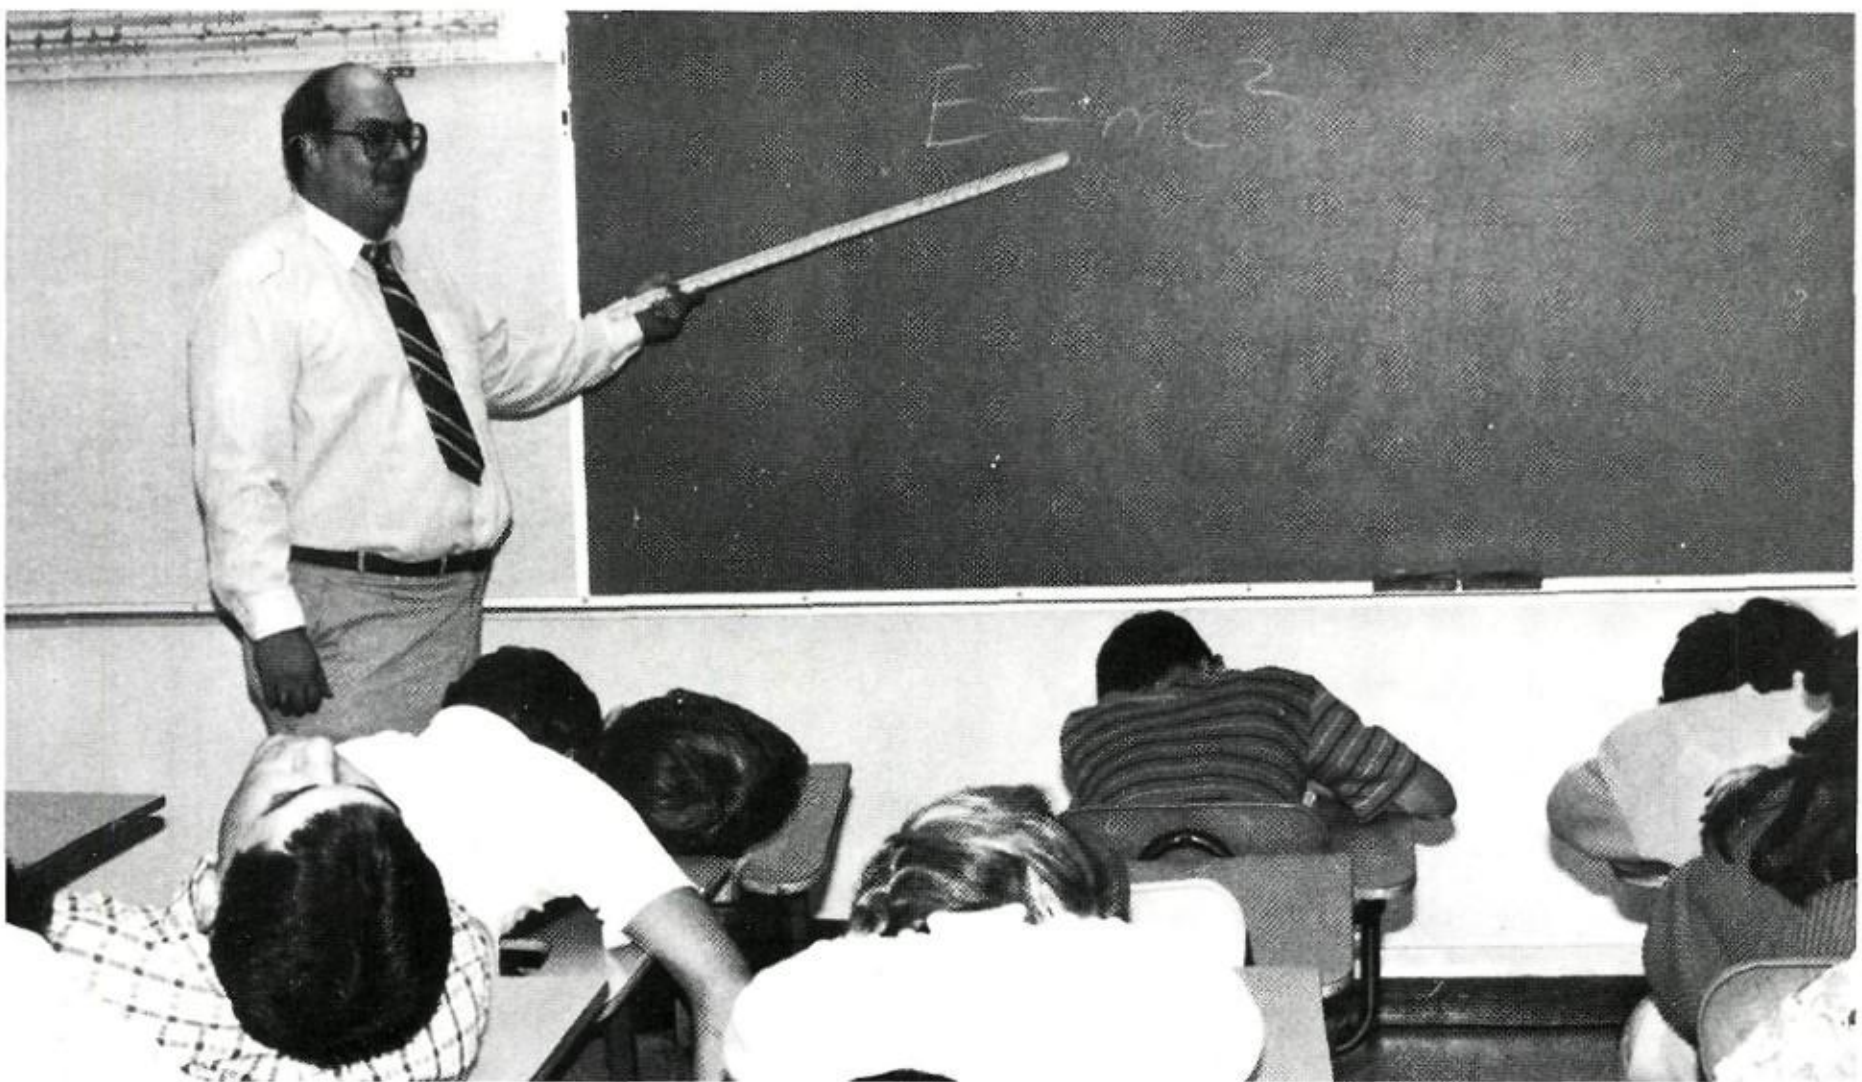

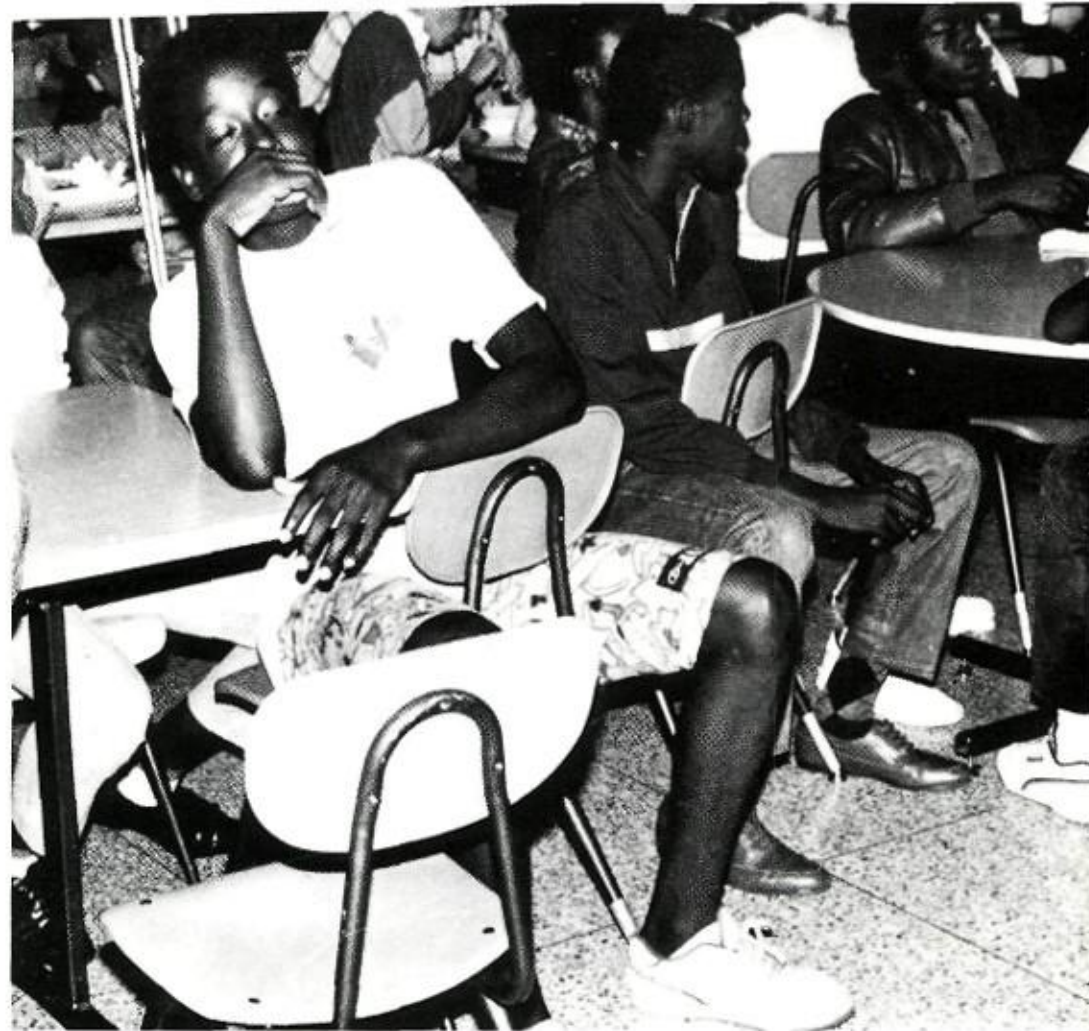

Angelic Students . . .

Have you ever stopped to think of all the crimes you've committed right here at ASH? I know what you're thinking — How could I possibly break a law at school? Just think of all the little things that we do — such as sleeping in class, chewing gum (or even blowing a bubble !?!), or kissing our beloved in the empty hallway. And, of course, we have girl crimes, and boy crimes. Girls, have you ever worn an illegal mini-skirt? Or what about the guys' long hair and earrings to match? Have you ever dared so much as to not wear socks, Guys? Come on, I know you have. So, you would have to answer "yes" to the original question. We, the angelic students of ASH, have all committed devilish deeds.

Student Council

Promoting school involvement and acting as a voice between the administration and the student body, eight dedicated students have worked to make this year the best it can be. Every Tuesday morning at eight o'clock these hardworking individuals meet to inform the representatives about various activities going on around the school. The student council sponsors many social activities going on around the school, such as the Homecoming dance, the Sadie Hawkins dance, Almost the Olympics, Ashlabration, the Christmas Assembly, and Love Month. They also sponsor many helpful civic activities, such as the canned food drive, the toy drive, teacher appreciation week, and T-Mart, the ASH supply store.

French Club — Formidable!

The French Club is composed of students presently enrolled in a French class. Making It Happen

A spirit of pride accompanies the members of Forum in everything they do. Publishing the ASH literary magazine is a difficult job, but the Forum Staff's creative abilities allow them to produce a publication of which ASH can be proud. Only imaginative and creative prose, poetry, and short stories written by ASH students are displayed in the Forum. But that's not all. All of the Forum's artwork is also done by ASH students. Without a doubt, the Forum Staff does a commendable job of presenting the work of ASH's talented student body.

Quill and Scroll- A Zenith of Originality

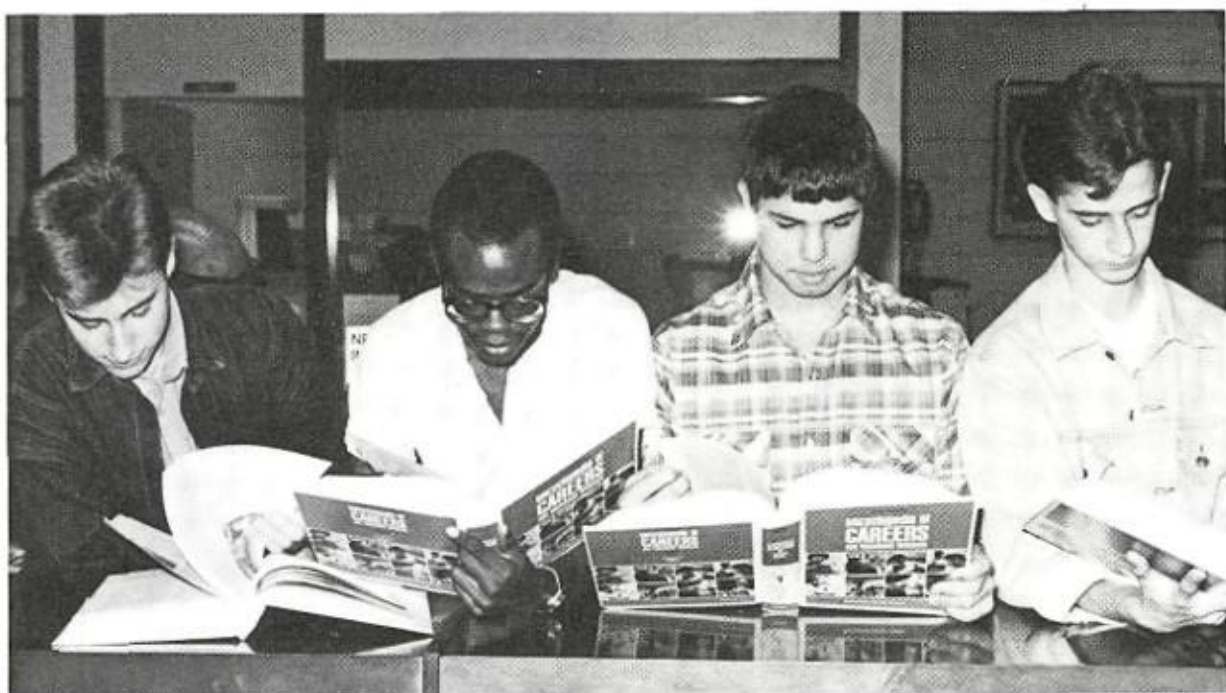

Originality . . . is the key to being a member of the Quill and Scroll Society. A student must also be able to express himself through his writings in either poetry, short stories, essays, or all three. This group of juniors and seniors has a unique perception of writing, not only in school publications but also in community publications. Imagination also plays a big part in all of their work. The members submit what they believe to be their best writings to the FORUM staff for publication. Being talented and creative is not enough to be in the Quill and Scroll Society. For this certain club, one must also possess the key of originality.

1986 was a year of success as well as a year of starting over for the Trojans. This season the team had the fewest number of veteran players in ten years. Despite the lack of experience, the Trojans finished with a 5-5 record.

According to Coach Stoker, "We had a team of overachievers. Anytime you have a team like that, you're going to have a lot of success. It would have been easy to quit when we were 1-3, but we didn't, and we came back. I think this year has set the tone for a possible future state championship. I think that this season is going to have a tremendous amount of carryover for the years to come."

Shoot the Hoop

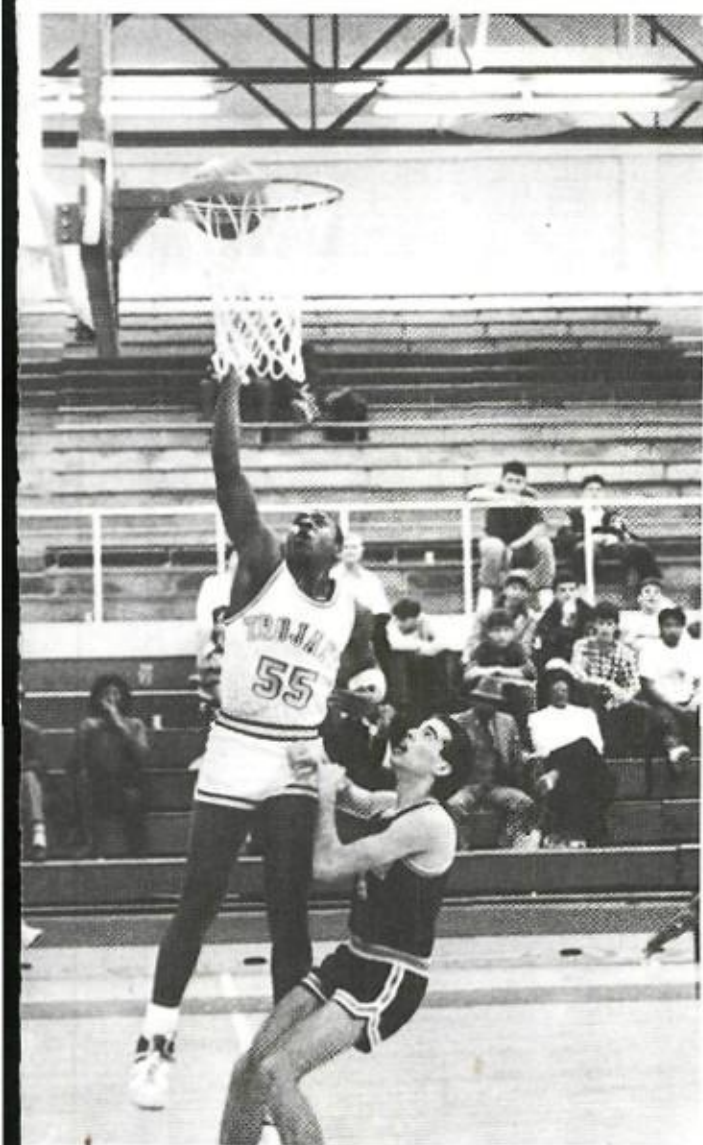

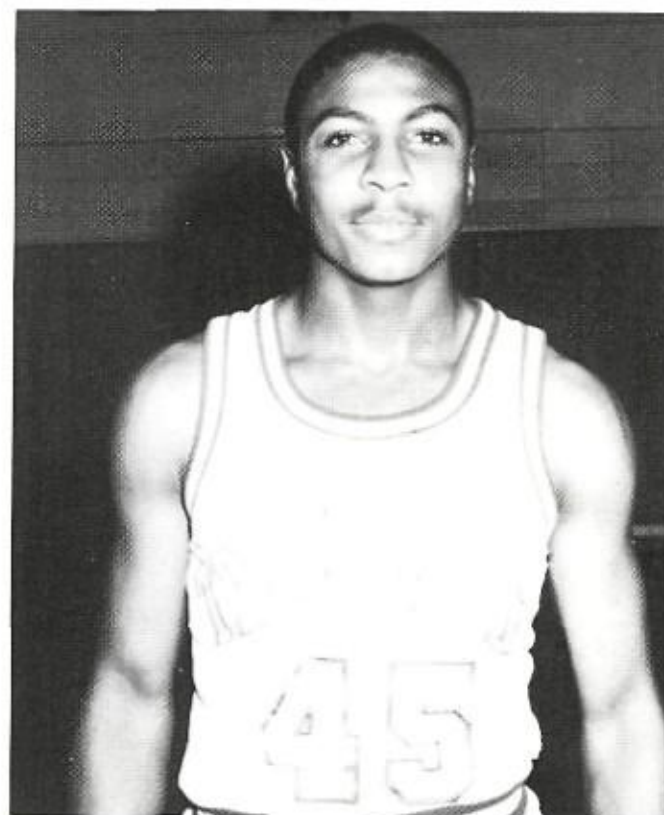

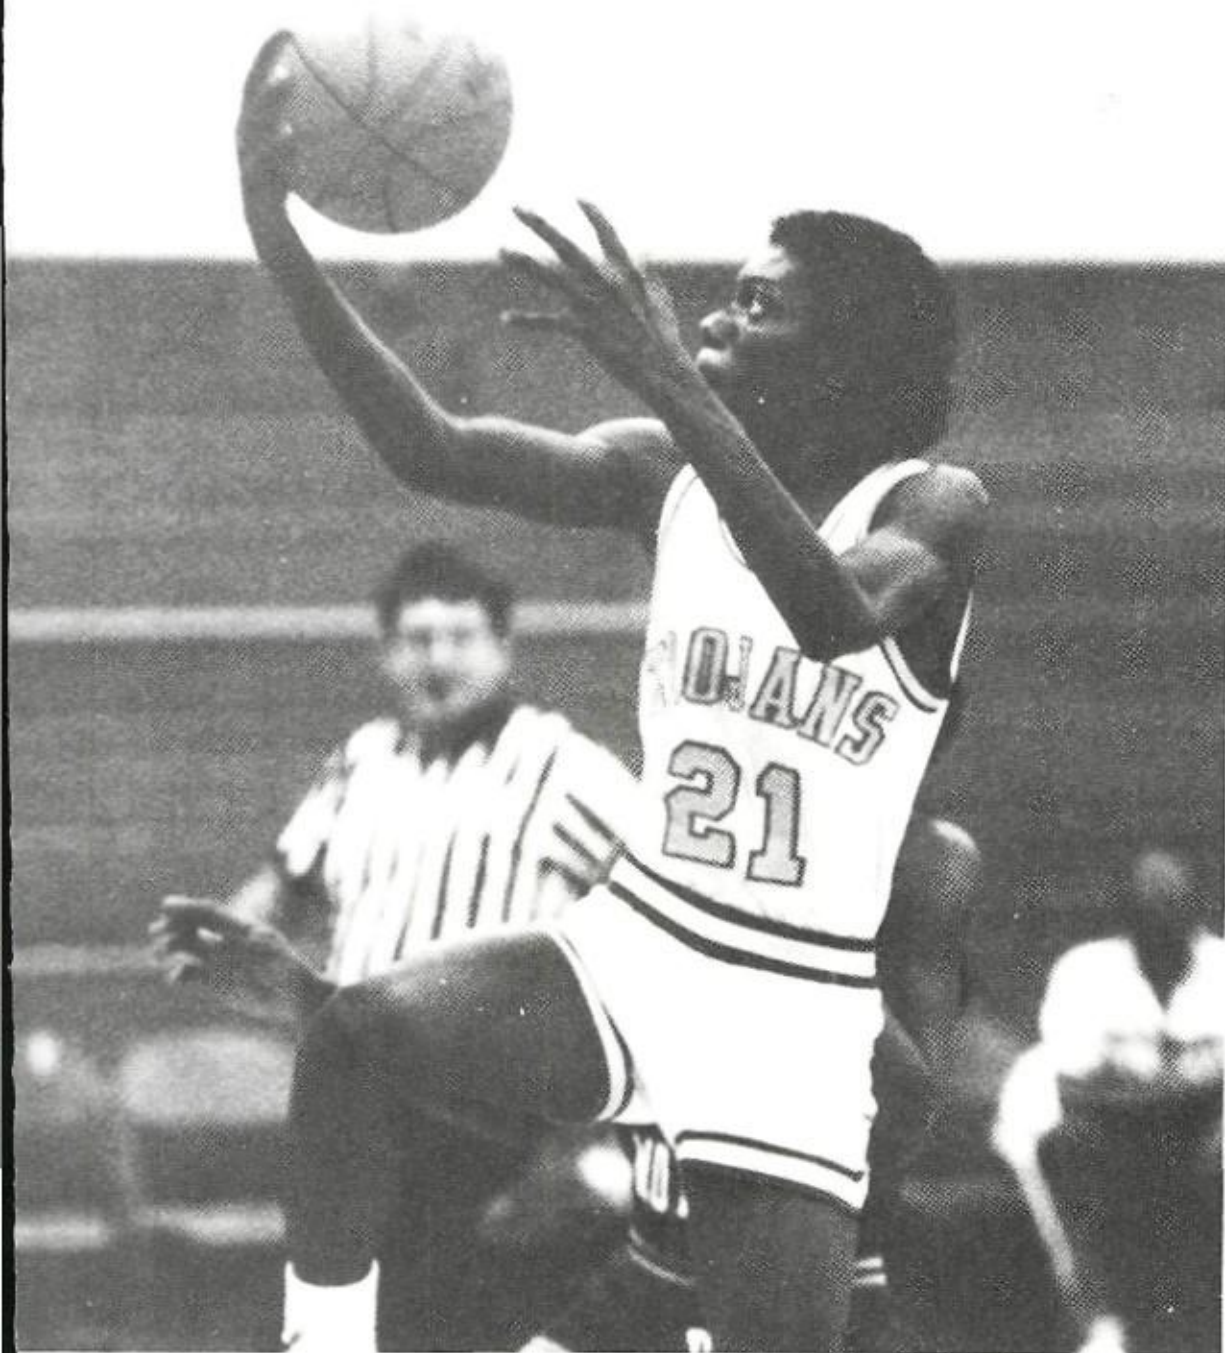

The 86-87 Trojan Hoopsters were a group of people that didn't know the meaning of the word "quit." This season proved to be a challenging one as the majority of the games were not decided until the very end. The Trojan Hoopsters played their hardest, to say the least, and are sure of many victories in the seasons to come.

Lady Trojans Shooting to Win

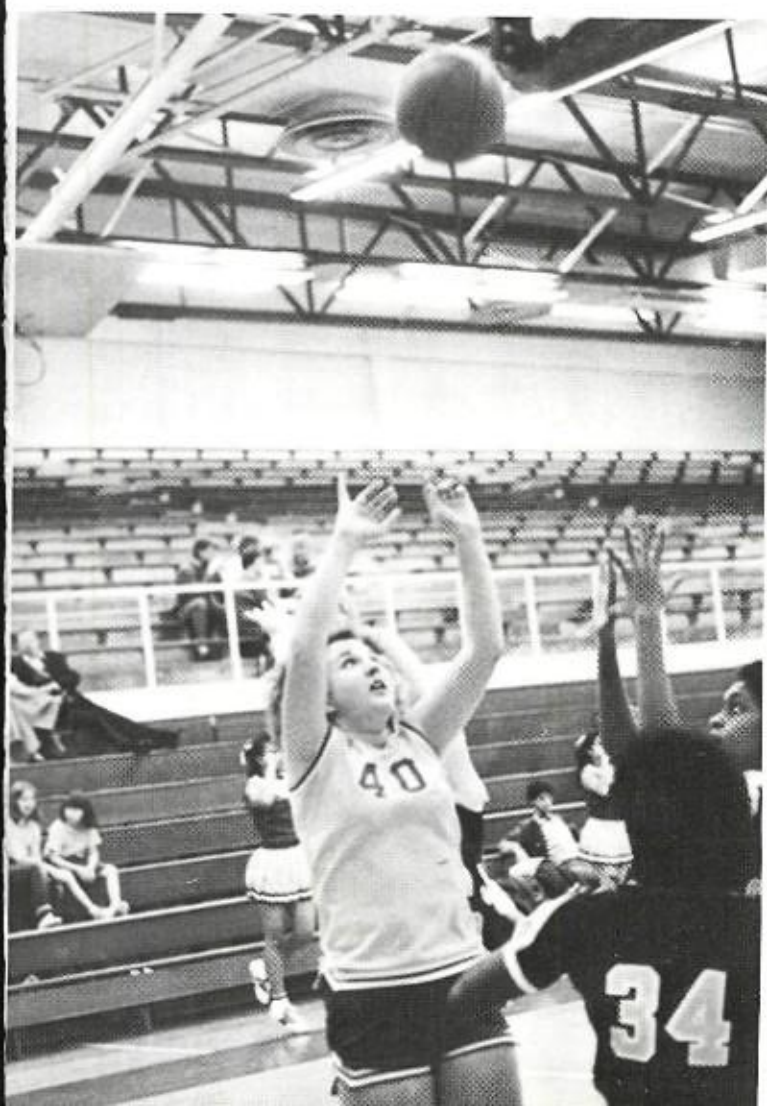

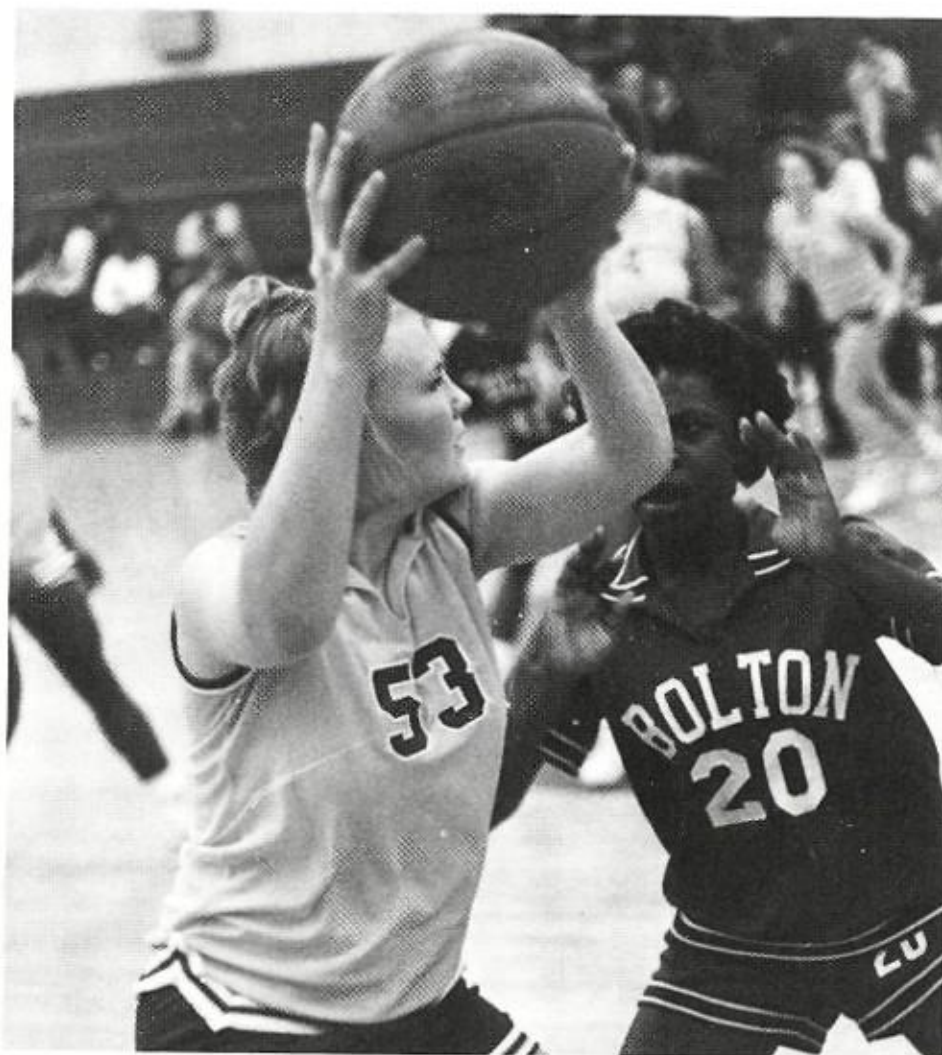

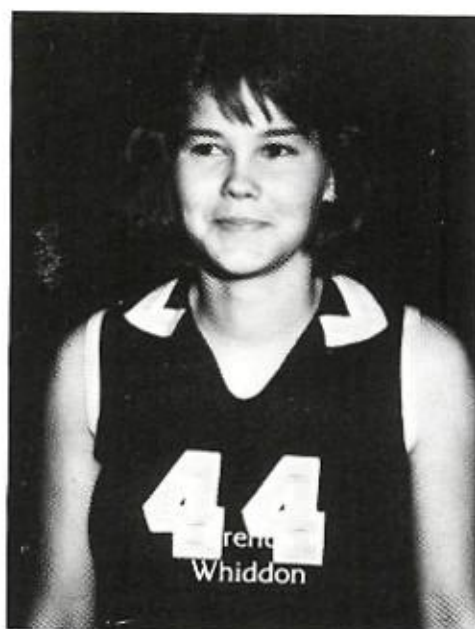

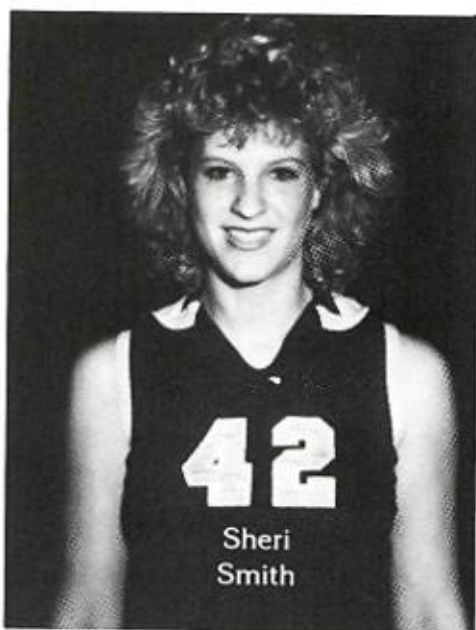

The 1986-87 Lady Trojan basketball team was young, ambitious, and eager. The leadership of the three seniors provided a strong foundation for a successful future. Coach Looper encouraged the team onward and upward. The many young ladies who will return next year to protect the Trojan name on the court will benefit greatly from the experience they have gained this year.

ASH Track Takes State 2 Years Running

The 1985-86 Tracksters made history by becoming the first team to ever take state in AAA and come back the next year to take state in AAAA. According to Coach Brown, "We had good Senior leadership. At the state meet we all had to peak to be able to have a shot. The team waited until it counted to do their best."

The 85-86 Trojan Swim team proved to be a dominate force in the aquatic world last year. The team won the majority of its meets, and it placed fourteenth at the state meet. The team was under the leadership of Coach W. Fall.

Lady Trojans - The Best Is Yet To Come

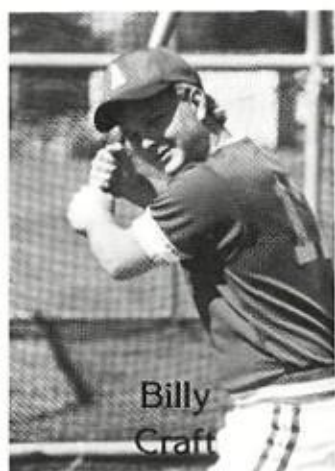

The Lady Trojans, composed mainly of underclassmen, showed a definite improvement last year in district, finishing 2-2. Lyn Marler received an honorable mention in district. "She hit very well and struck out only once," says softball coach, Cliff Pryor. The team also finished 3rd out of the 15 teams in the Opelousas Catholic Softball Tournament.

Trojan Sluggers Take District

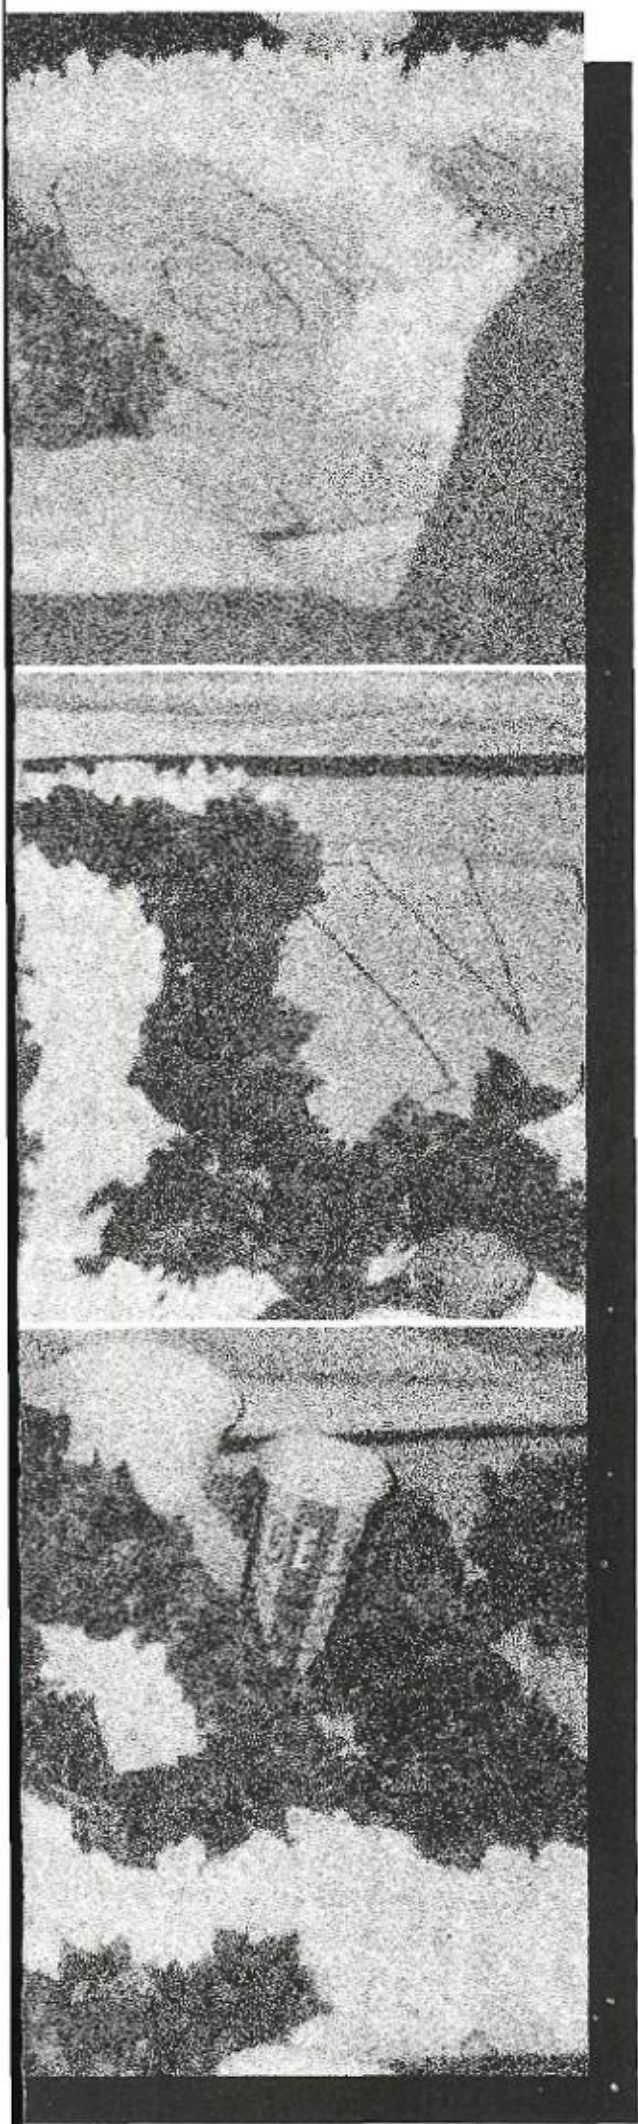

With an 11-3 record in district, the 85-86 Trojans had a very impressive year. For the first time ever, the Trojans took district. According to Coach Boniol, "The way we won was impressive. We came back from so far behind. At one point we were 2-3 and in last place. We had to win eight games in-a-row to win the league. The biggest turn-around was in pitching. Our pitchers did an excellent job."

"Last year we had four All-District players and one All-State player. They were sophomore Marvin Cole who received Honorable Mention for All-State, sophomore Craig Bradshaw, senior Scott Stoker, and senior William Taylor who was also ASH's first All-State player. Taylor was also named High School Player of the Year."

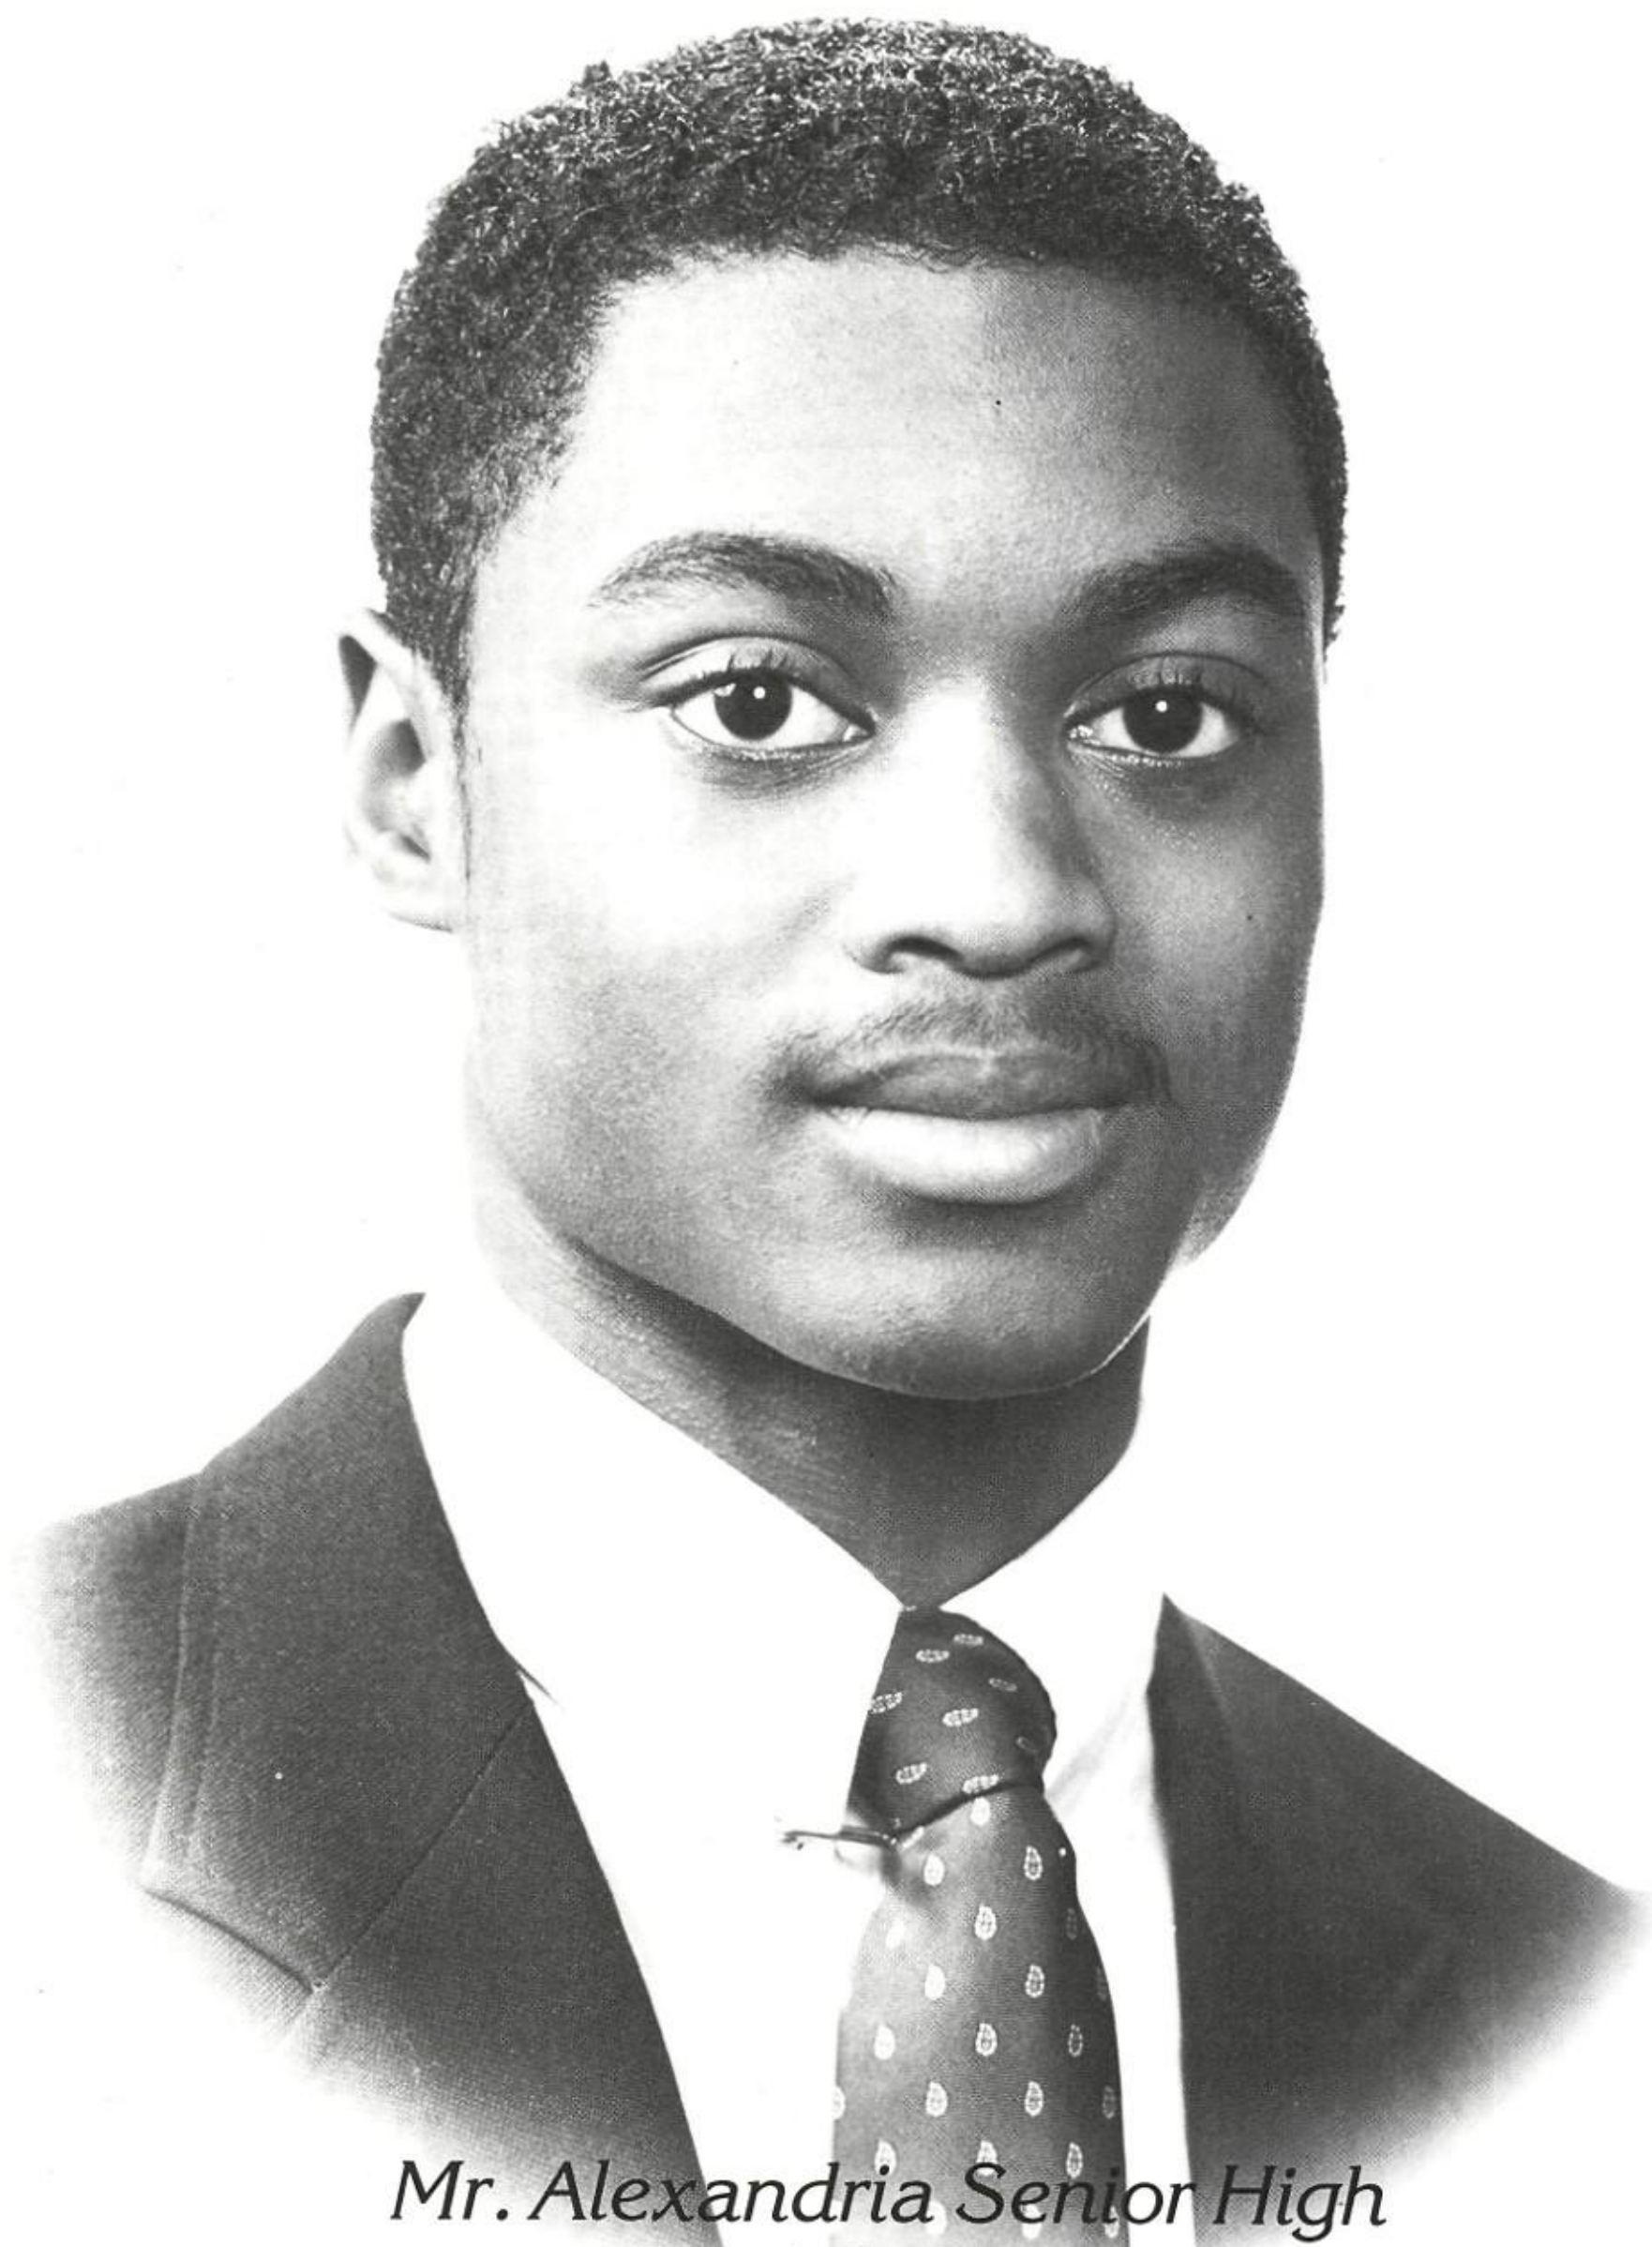

"It was an overall effort by the players. Their great character was the reason for our success. I believe the program is on an upswing," said Coach Boniol.

Homecoming Happenings

Lively, spirited, and really fun is the only way to describe this year's Homecoming festivities. The 1987 Homecoming Queen, Stephanie Golmon, and her court, Leslie Frank, Laurie Gaspard, Kim Simpson, Linda Davis, Babette Brown, Christine Allen, and D'Wana Painter, reigned beautifully over the game, parade, and, of course, the Homecoming Dance. These eight girls, elected by the student body, were presented at the dance by eight football players and represented ASH as the week of Homecoming wound to an end.

If there's a new typewriter you have in mind, we probably have it. Quiet typewriters...typewriters with memory...typewriters that check spelling, etc., etc.

They're all members of the IBM Selectric® System/2000 family. Which means no matter which one you choose, you'll get IBM quality and the familiar IBM typing "touch."

And since we're a specially trained Authorized IBM Typewriter Dealer, you'll also get our typewriter expertise. So come see us for a free demonstration. The IBM Selectric® System/2000 family.

The possibilities are endless.

No matter how you look at typing,
we're your type.
